- (1) Other than the Company's investments listed in footnote 5 below (subject to the limitations set forth therein), the Company does not "Control" any of its portfolio companies, for the purposes of the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the "Investment Company Act"). In general, under the Investment Company Act, the Company would "Control" a portfolio company if the Company owned more than 25% of its outstanding voting securities (i.e., securities with the right to elect directors) and/or had the power to exercise control over the management or policies of such portfolio company. All of the Company's portfolio company investments, which as of September 30, 2022 represented 226% of the Company's net assets or 97% of the Company's total assets, are subject to legal restrictions on sales.
- (2) These assets are pledged as collateral under the Company's or the Company's consolidated subsidiaries' various revolving credit facilities and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than the obligations under each of the respective facility (see Note 5).
- (3) Investments without an interest rate are non-income producing.

- (4) As defined in the Investment Company Act, the Company is deemed to be an “Affiliated Person” because it owns 5% or more of the portfolio company’s outstanding voting securities or it has the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions as of and during the nine months ended September 30, 2022 in which the issuer was an Affiliated Person of the Company (but not a portfolio company that the Company is deemed to Control) are as follows:

- (5) As defined in the Investment Company Act, the Company is deemed to be both an “Affiliated Person” and “Control” this portfolio company because it owns more than 25% of the portfolio company’s outstanding voting securities or it has the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions as of and during the nine months ended September 30, 2022 in which the issuer was both an Affiliated Person and a portfolio company that the Company is deemed to Control are as follows:

- * Together with Varagon Capital Partners (“Varagon”) and its clients, the Company has co-invested through the Senior Direct Lending Program LLC (d/b/a the “Senior Direct Lending Program” or the “SDLP”). The SDLP has been capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SDLP must be approved by an investment committee of the SDLP consisting of representatives of the Company and Varagon (with approval from a representative of each required); therefore, although the Company owns more than 25% of the voting securities of the SDLP, the Company does not believe that it has control over the SDLP (for purposes of the Investment Company Act or otherwise) because, among other things, these “voting securities” do not afford the Company the right to elect directors of the SDLP or any other special rights (see Note 4 to the consolidated financial statements).

- (6) This portfolio company is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets. Pursuant to Section 55(a) of the

Investment Company Act, 23% of the Company's total assets are represented by investments at fair value and other assets that are considered "non-qualifying assets" as of September 30, 2022.

- (7) Variable rate loans to the Company's portfolio companies bear interest at a rate that may be determined by reference to the London Interbank Offered Rate ("LIBOR"), the Secured Overnight Financing Rate ("SOFR"), or an alternate base rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, the Company has provided the interest rate in effect on the date presented. SOFR based contracts may include a credit spread adjustment that is charged in addition to the base rate and the stated spread.
- (8) In addition to the interest earned based on the stated interest rate of this security, the Company is entitled to receive an additional interest amount of 2.00% on \$40.9 in aggregate principal amount of a "first out" tranche of the portfolio company's senior term debt previously syndicated by the Company into "first out" and "last out" tranches, whereby the "first out" tranche will have priority as to the "last out" tranche with respect to payments of principal, interest and any other amounts due thereunder.
- (9) The Company sold a participating interest of approximately \$79.3 in aggregate principal amount outstanding of the portfolio company's first lien senior secured revolving loan. As the transaction did not qualify as a "true sale" in accordance with GAAP, the Company recorded a corresponding \$79.3 secured borrowing, at fair value, included in "secured borrowings" in the accompanying consolidated balance sheet. As of September 30, 2022, the interest rate in effect for the secured borrowing was 10.06%.
- (10) Loan was on non-accrual status as of September 30, 2022.
- (11) Loan includes interest rate floor feature.
- (12) In addition to the interest earned based on the stated contractual interest rate of this security, the certificates entitle the holders thereof to receive a portion of the excess cash flow from the SDLP's loan portfolio, after expenses, which may result in a return to the Company greater than the contractual stated interest rate.
- (13) As of September 30, 2022, no amounts were funded by the Company under this first lien senior secured revolving loan; however, there were letters of credit issued and outstanding through a financial intermediary under the loan. See Note 7 for further information on letters of credit commitments related to certain portfolio companies.
- (14) As of September 30, 2022, in addition to the amounts funded by the Company under this first lien senior secured revolving loan, there were also letters of credit issued and outstanding through a financial intermediary under the loan. See Note 7 for further information on letters of credit commitments related to certain portfolio companies.
- (15) As of September 30, 2022, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans, including commitments to issue letters of credit through a financial intermediary on behalf of certain portfolio companies. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these loans and letters of credit and there can be no assurance that such conditions will be satisfied. See Note 7 for further information on revolving and delayed draw loan commitments, including commitments to issue letters of credit, related to certain portfolio companies.

- (1) Other than the Company's investments listed in footnote 5 below (subject to the limitations set forth therein), the Company does not "Control" any of its portfolio companies, for the purposes of the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the "Investment Company Act"). In general, under the Investment Company Act, the Company would "Control" a portfolio company if the Company owned more than 25% of its outstanding voting securities (i.e., securities with the right to elect directors) and/or had the power to exercise control over the management or policies of such portfolio company. All of the Company's portfolio company investments, which as of December 31, 2021 represented 226% of the Company's net assets or 96% of the Company's total assets, are subject to legal restrictions on sales.
- (2) These assets are pledged as collateral under the Company's or the Company's consolidated subsidiaries' various revolving credit facilities and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than the obligations under each of the respective facility (see Note 5).
- (3) Investments without an interest rate are non-income producing.

- (4) As defined in the Investment Company Act, the Company is deemed to be an “Affiliated Person” because it owns 5% or more of the portfolio company’s outstanding voting securities or it has the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions as of and during the year ended December 31, 2021 in which the issuer was an Affiliated Person of the Company (but not a portfolio company that the Company is deemed to Control) are as follows:

- * Together with Varagon Capital Partners (“Varagon”) and its clients, the Company has co-invested through the Senior Direct Lending Program LLC (d/b/a the “Senior Direct Lending Program” or the “SDLP”). The SDLP has been capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SDLP must be approved by an investment committee of the SDLP consisting of representatives of the Company and Varagon (with approval from a representative of each required); therefore, although the Company owns more than 25% of the voting securities of the SDLP, the Company does not believe that it has control over the

SDLP (for purposes of the Investment Company Act or otherwise) because, among other things, these “voting securities” do not afford the Company the right to elect directors of the SDLP or any other special rights (see Note 4 to the consolidated financial statements).

- (6) This portfolio company is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets. Pursuant to Section 55(a) of the Investment Company Act, 16% of the Company's total assets are represented by investments at fair value and other assets that are considered "non-qualifying assets" as of December 31, 2021.
- (7) Variable rate loans to the Company's portfolio companies bear interest at a rate that may be determined by reference to either the London Interbank Offered Rate (“LIBOR”) or an alternate base rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, the Company has provided the interest rate in effect on the date presented.
- (8) In addition to the interest earned based on the stated interest rate of this security, the Company is entitled to receive an additional interest amount of 2.00% on \$46.9 in aggregate principal amount of a “first out” tranche of the portfolio company's senior term debt previously syndicated by the Company into “first out” and “last out” tranches, whereby the “first out” tranche will have priority as to the “last out” tranche with respect to payments of principal, interest and any other amounts due thereunder.
- (9) The Company sold a participating interest of approximately \$0.6 in aggregate principal amount of the portfolio company's first lien senior secured delayed draw term loan. As the transaction did not qualify as a “true sale” in accordance with U.S. generally accepted accounting principles (“GAAP”), the Company recorded a corresponding \$0.2 secured borrowing, at fair value, included in “secured borrowings” in the accompanying consolidated balance sheet. As of December 31, 2021, the interest rate in effect for the secured borrowing was 14.50%.
- (10) The Company sold a participating interest of approximately \$75.0 in aggregate principal amount outstanding of the portfolio company's first lien senior secured revolving loan. As the transaction did not qualify as a “true sale” in accordance with GAAP, the Company recorded a corresponding \$73.2 secured borrowing, at fair value, included in “secured borrowings” in the accompanying consolidated balance sheet. As of December 31, 2021, the interest rate in effect for the secured borrowing was 8.50%.
- (11) Loan was on non-accrual status as of December 31, 2021.
- (12) Loan includes interest rate floor feature.
- (13) In addition to the interest earned based on the stated contractual interest rate of this security, the certificates entitle the holders thereof to receive a portion of the excess cash flow from the SDLP's loan portfolio, after expenses, which may result in a return to the Company greater than the contractual stated interest rate.
- (14) As of December 31, 2021, no amounts were funded by the Company under this first lien senior secured revolving loan; however, there were letters of credit issued and outstanding through a financial intermediary under the loan. See Note 7 for further information on letters of credit commitments related to certain portfolio companies.
- (15) As of December 31, 2021, in addition to the amounts funded by the Company under this first lien senior secured revolving loan, there were also letters of credit issued and outstanding through a financial intermediary under the loan. See Note 7 for further information on letters of credit commitments related to certain portfolio companies.
- (16) As of December 31, 2021, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans, including commitments to issue letters of credit through a financial intermediary on behalf of certain portfolio companies. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these loans and letters of credit and there can be no assurance that such conditions will be satisfied. See Note 7 for further information on revolving and delayed draw loan commitments, including commitments to issue letters of credit, related to certain portfolio companies.

1. ORGANIZATION

Ares Capital Corporation (the “Company”) is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. The Company has elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the “Investment Company Act”). The Company has elected to be treated as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (the “Code”), and operates in a manner so as to qualify for the tax treatment applicable to RICs.

The Company’s investment objective is to generate both current income and capital appreciation through debt and equity investments. The Company invests primarily in first lien senior secured loans (including “unitranche” loans, which are loans that combine both senior and subordinated debt, generally in a first lien position) and second lien senior secured loans. In addition to senior secured loans, the Company also invests in subordinated loans (sometimes referred to as mezzanine debt), which in some cases includes an equity component, and preferred equity. To a lesser extent, the Company also makes common equity investments.

The Company is externally managed by Ares Capital Management LLC (“Ares Capital Management” or the Company’s “investment adviser”), a subsidiary of Ares Management Corporation (“Ares Management”), a publicly traded, leading global alternative investment manager, pursuant to an investment advisory and management agreement. Ares Operations LLC (“Ares Operations” or the Company’s “administrator”), a subsidiary of Ares Management, provides certain administrative and other services necessary for the Company to operate.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles (“GAAP”), and include the accounts of the Company and its consolidated subsidiaries. The Company is an investment company following accounting and reporting guidance in Accounting Standards Codification (“ASC”) 946, *Financial Services-Investment Companies*. The consolidated financial statements reflect all adjustments and reclassifications that, in the opinion of management, are necessary for the fair presentation of the results of operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

Interim financial statements are prepared in accordance with GAAP for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. In the opinion of management, all adjustments, consisting solely of normal recurring accruals considered necessary for the fair presentation of financial statements for the interim period presented, have been included. The current period’s results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2022.

Cash, Cash Equivalents and Restricted Cash

Cash and cash equivalents include funds from time to time deposited with financial institutions and short-term, liquid investments in a money market account. Cash and cash equivalents are carried at cost which approximates fair value. As of September 30, 2022 and December 31, 2021, there was \$29 and \$62, respectively, of cash denominated in foreign currencies included within “cash and cash equivalents” or “restricted cash” in the accompanying consolidated balance sheet.

Restricted cash primarily relates to cash received by the Company on behalf of participating lenders as a result of the Company’s role as administrative agent for certain loans. The cash received is generally distributed to participating lenders shortly after the receipt of such cash.

The following table provides a reconciliation of cash, cash equivalents and restricted cash in the consolidated balance sheet to the total amount shown at the end of the applicable period in the consolidated statement of cash flows:

	As of	
	September 30, 2022	December 31, 2021
Cash and cash equivalents	\$ 257	\$ 372
Restricted cash	105	114
Total cash, cash equivalents and restricted cash shown in the consolidated statement of cash flows	<u>\$ 362</u>	<u>\$ 486</u>

Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment using the specific identification method without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized.

Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, the Company looks at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of the Company's investments) are valued at fair value as determined in good faith by the Company's board of directors, based on, among other things, the input of the Company's investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of the Company's board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12-month period (with certain de minimis exceptions) and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a portion of the Company's investment portfolio at fair value is subject to review by an independent third-party valuation firm each quarter. In addition, the Company's independent registered public accounting firm obtains an understanding of, and performs select procedures relating to, the Company's investment valuation process within the context of performing the integrated audit.

As part of the valuation process, the Company may take into account the following types of factors, if relevant, in determining the fair value of the Company's investments: the enterprise value of a portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets, which may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent sale occurs, the Company considers the pricing indicated by the external event to corroborate its valuation.

Because there is not a readily available market value for most of the investments in its portfolio, the Company values substantially all of its portfolio investments at fair value as determined in good faith by its board of directors, as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period. Additionally, the fair value of the Company's investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If the Company was required to liquidate a portfolio investment in a forced or liquidation sale, the Company could realize significantly less than the value at which the Company has recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

The Company's board of directors undertakes a multi-step valuation process each quarter, as described below:

- The Company's quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with the Company's portfolio management team.
- Preliminary valuations are reviewed and discussed with the Company's investment adviser's management and investment professionals, and then valuation recommendations are presented to the Company's board of directors.
- The audit committee of the Company's board of directors reviews these valuations, as well as the input of third parties, including independent third-party valuation firms who have reviewed a portion of the investments in the Company's portfolio at fair value.
- The Company's board of directors discusses valuations and ultimately determines the fair value of each investment in the Company's portfolio without a readily available market quotation in good faith based on, among other things, the input of the Company's investment adviser, audit committee and, where applicable, independent third-party valuation firms.

See Note 8 for more information on the Company's valuation process.

Interest Income Recognition

Interest income is recorded on an accrual basis and includes the accretion of discounts, amortization of premiums and payment-in-kind ("PIK") interest. Discounts from and premiums to par value on investments purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. To the extent loans contain PIK provisions, PIK interest, computed at the contractual rate specified in each applicable agreement, is accrued and recorded as interest income and added to the principal balance of the loan. PIK interest income added to the principal balance is generally collected upon repayment of the outstanding principal. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends for the year the income was earned, even though the Company has not yet collected the cash. The amortized cost of investments represents the original cost adjusted for any accretion of discounts, amortization of premiums and PIK interest.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected in full. Accrued and unpaid interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon the Company's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest are paid or there is no longer any reasonable doubt that such principal or interest will be collected in full and, in the Company's judgment, are likely to remain current. The Company may make exceptions to this policy if the loan has sufficient collateral value (i.e., typically measured as enterprise value of the portfolio company) or is in the process of collection.

Dividend Income Recognition

Dividend income on preferred equity is recorded on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. To the extent a preferred equity contains PIK provisions, PIK dividends, computed at the contractual rate specified in each applicable agreement, are accrued and recorded as dividend income and added to the principal balance of the preferred equity. PIK dividends added to the principal balance are generally collected upon redemption of the equity.

Capital Structuring Service Fees and Other Income

In pursuit of the Company's investment objective, the Company's investment adviser seeks to provide assistance to its portfolio companies and in return the Company may receive fees for capital structuring services. These fees are fixed based on contractual terms, are generally only available to the Company as a result of the Company's underlying investments, are

normally paid at the closing of the investments, are generally non-recurring and non-refundable and are recognized as revenue when earned upon closing of the investment. The services that the Company's investment adviser provides vary by investment, but generally include reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the contractual life of the loan.

Other income includes amendment fees that are fixed based on contractual terms and are generally non-recurring and non-refundable and are recognized as revenue when earned upon closing of the related transaction. Other income also includes fees for management and consulting services, agency services, loan guarantees, commitments, and other services rendered by the Company to portfolio companies. Such fees are fixed based on contractual terms and are recognized as income as services are rendered.

Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Fair value of investment securities, other assets and liabilities—at the exchange rates prevailing at the end of the period.
- (2) Purchases and sales of investment securities, income and expenses—at the exchange rates prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations, if any. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

Derivative Instruments

The Company does not utilize hedge accounting and as such values its derivatives at fair value with the unrealized gains or losses recorded in "net unrealized gains (losses) from foreign currency and other transactions" in the Company's consolidated statement of operations.

Equity Offering Expenses

The Company's offering costs are charged against the proceeds from equity offerings when proceeds are received.

Debt Issuance Costs

Debt issuance costs are amortized over the life of the related debt instrument using the straight line method or the effective yield method, depending on the type of debt instrument.

Secured Borrowings

The Company follows the guidance in ASC Topic 860, *Transfers and Servicing*, when accounting for participations and other partial loan sales. Certain loan sales do not qualify for sale accounting under ASC Topic 860 because these sales do not meet the definition of a "participating interest," as defined in the guidance, in order for sale treatment to be allowed. Participations or other partial loan sales which do not meet the definition of a participating interest or which are not eligible for sale accounting remain as an investment on the consolidated balance sheet as required under GAAP and the proceeds are recorded as a secured borrowing. Secured borrowings are carried at fair value.

Leases

The Company is obligated under a number of operating leases pursuant to which it is leasing office facilities from third parties with remaining terms ranging from approximately one to four years. Such operating leases are included in operating lease right-of-use (“ROU”) assets and operating lease liabilities in the accompanying consolidated balance sheets. The Company does not have any finance leases.

The ROU asset represents the Company’s right to use an underlying asset for the lease term and the operating lease liability represents the Company’s obligation to make lease payments arising from such lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over the remaining lease term. The Company’s leases do not provide an implicit discount rate, and as such the Company uses its weighted average borrowing rate based on the information available at the commencement date in determining the present value of the remaining lease payments. Lease expense is recognized on a straight-line basis over the remaining lease term. The Company has elected as a practical expedient to treat non-lease components as part of the lease as these components are not significant when compared to the lease component.

Income Taxes

The Company has elected to be treated as a RIC under the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other requirements, meet certain source-of- income and asset diversification requirements and timely distribute to its stockholders at least 90% of its investment company taxable income, as defined by the Code, for each year. The Company has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal corporate-level income taxes.

Depending on the level of taxable income earned in a tax year, the Company may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year taxable income will be in excess of estimated dividend distributions for the current year from such income, the Company accrues excise tax, if any, on estimated excess taxable income as such taxable income is earned.

The Company may hold certain portfolio company investments through consolidated taxable subsidiaries. Such subsidiaries may be subject to U.S. federal and state corporate-level income taxes. These consolidated subsidiaries recognize deferred tax assets and liabilities for the estimated future tax effects attributable to temporary differences between the tax basis of certain assets and liabilities and the reported amounts included in the accompanying consolidated balance sheet using the applicable statutory tax rates in effect for the year in which any such temporary differences are expected to reverse.

Dividends to Common Stockholders

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend is determined by the Company’s board of directors each quarter and is generally based upon the earnings estimated by management and considers the level of undistributed taxable income carried forward from the prior year for distribution in the current year. Net realized capital gains, if any, are generally distributed, although the Company may decide to retain such capital gains for investment.

The Company has adopted a dividend reinvestment plan that provides for reinvestment of any distributions the Company declares in cash on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, if the Company’s board of directors authorizes, and the Company declares, a cash dividend, then the Company’s stockholders who have not “opted out” of the Company’s dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of the Company’s common stock, rather than receiving the cash dividend. The Company may use newly issued shares to implement the dividend reinvestment plan or, if the Company is otherwise permitted under applicable law to purchase such shares, the Company may purchase shares in the open market in connection with the Company’s obligations under the dividend reinvestment plan.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

Recent Accounting Pronouncements

The Company considers the applicability and impact of all accounting standard updates (“ASU”) issued by the Financial Accounting Standards Board (“FASB”). ASUs not listed below were assessed and either determined to be not applicable or expected to have minimal impact on its consolidated financial statements.

In August 2020, the FASB issued ASU No. 2020-06, “*Debt-Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging-Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity*,” which simplifies the accounting for convertible instruments by removing the separation models for (1) convertible debt with a cash conversion feature and (2) convertible instruments with a beneficial conversion feature. As a result, after adoption, a convertible debt instrument will be accounted for as a single liability measured at its amortized cost. Additionally, ASU 2020-06 requires the application of the if-converted method to calculate the impact of convertible instruments on diluted earnings per share. ASU 2020-06 is effective for fiscal years beginning after December 15, 2021 and can be adopted on either a fully retrospective or modified retrospective basis. The Company adopted ASU 2020-06 on January 1, 2022, electing the modified retrospective transition method that allows for a cumulative-effect adjustment in the period of adoption. As a result of adopting the guidance, the Company is no longer separating the convertible instruments into debt and equity components, and is instead accounting for convertible instruments as entirely debt.

The impact of the Company’s adoption under the modified retrospective basis required a cumulative effect adjustment to opening net assets for the remaining unamortized discount on the \$403 in aggregate principal amount of unsecured convertible notes outstanding as of March 31, 2022, and a requirement for the Company to calculate diluted earnings per share using the if-converted method which assumes full share settlement for the aggregate value of the \$403 in aggregate principal amount of unsecured convertible notes. The Company’s adoption of this guidance did not have a material impact on the Company’s financial position, results of operations or cash flows. See Notes 5 and 10 for additional information on the effects of the adoption of ASU 2020-06.

In March 2020, the FASB issued ASU No. 2020-04, “*Reference Rate Reform (Topic 848)*,” which provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. The amendments apply only to contracts, hedging relationships, and other transactions that reference London Interbank Offered Rate (“LIBOR”) or another reference rate expected to be discontinued because of reference rate reform. In January 2021, the FASB issued ASU No. 2021-01, *Reference Rate Reform (Topic 848)*, which expanded the scope of Topic 848 to include derivative instruments impacted by discounting transition. ASU 2020-04 and ASU 2021-01 are effective for all entities through December 31, 2022. The expedients and exceptions provided by the amendments do not apply to contract modifications and hedging relationships entered into or evaluated after December 31, 2022, except for hedging transactions as of December 31, 2022, that an entity has elected certain optional expedients for and that are retained through the end of the hedging relationship. The Company is currently evaluating the impact of the adoption of ASU 2020-04 and 2021-01 on its consolidated financial statements.

3. AGREEMENTS

Investment Advisory and Management Agreement

The Company is party to an investment advisory and management agreement (the “investment advisory and management agreement”) with Ares Capital Management. Subject to the overall supervision of the Company’s board of directors, Ares Capital Management provides investment advisory and management services to the Company. For providing these services, Ares Capital Management receives fees from the Company consisting of a base management fee, a fee based on the Company’s net investment income (“income based fee”) and a fee based on the Company’s net capital gains (“capital gains incentive fee”). The investment advisory and management agreement may be terminated by either party without penalty upon 60 days’ written notice to the other party.

Effective June 21, 2019, in connection with the Company’s board of directors’ approval of the modification of the asset coverage requirement applicable to senior securities from 200% to 150%, the investment advisory and management agreement was amended to reduce the Company’s annual base management fee rate from 1.5% to 1.0% on all assets financed using leverage over 1.0x debt to equity. For all assets financed using leverage up to 1.0x debt to equity, the annual base management fee rate remains at 1.5%. The base management fee is based on the average value of the Company’s total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters and is calculated by applying the applicable fee rate. The base management fee is payable quarterly in arrears. See Note 5 for additional information.

The income based fee is calculated and payable quarterly in arrears based on the Company's pre-incentive fee net investment income, as defined in the investment advisory and management agreement, for the quarter. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the base management fee, any expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the income based fee and capital gains incentive fee accrued under GAAP). Pre-incentive fee net investment income includes, in the case of investments with a deferred income feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that the Company has not yet received in cash. The Company's investment adviser is not under any obligation to reimburse the Company for any part of the income based fees it received that was based on accrued income that the Company never actually received.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses, unrealized capital appreciation, unrealized capital depreciation or income tax expense related to realized gains and losses. Because of the structure of the income based fee, it is possible that the Company may pay such fees in a quarter where the Company incurs a loss. For example, if the Company earns pre-incentive fee net investment income in excess of the hurdle rate (as defined below) for a quarter, the Company will pay the applicable income based fee even if the Company has incurred a loss in that quarter due to realized and/or unrealized capital losses.

Pre-incentive fee net investment income, expressed as a rate of return on the value of the Company's net assets (defined as total assets less indebtedness and before taking into account any income based fees and capital gains incentive fees payable during the period) at the end of the immediately preceding calendar quarter, is compared to a fixed "hurdle rate" of 1.75% per quarter. If market credit spreads rise, the Company may be able to invest its funds in debt instruments that provide for a higher return, which may increase the Company's pre-incentive fee net investment income and make it easier for the Company's investment adviser to surpass the fixed hurdle rate and receive an income based fee based on such net investment income. To the extent the Company has retained pre-incentive fee net investment income that has been used to calculate the income based fee, it is also included in the amount of the Company's total assets (other than cash and cash equivalents but including assets purchased with borrowed funds) used to calculate the base management fee.

The Company pays its investment adviser an income based fee with respect to the Company's pre-incentive fee net investment income in each calendar quarter as follows:

- No income based fee in any calendar quarter in which the Company's pre-incentive fee net investment income does not exceed the hurdle rate;
- 100% of the Company's pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.1875% in any calendar quarter. The Company refers to this portion of its pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.1875%) as the "catch-up" provision. The "catch-up" is meant to provide the Company's investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeded 2.1875% in any calendar quarter; and
- 20% of the amount of the Company's pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter.

These calculations are adjusted for any share issuances or repurchases during the quarter.

The capital gains incentive fee is determined and payable in arrears as of the end of each calendar year (or, upon termination of the investment advisory and management agreement, as of the termination date) and is calculated at the end of each applicable year by subtracting (a) the sum of the Company's cumulative aggregate realized capital losses and aggregate unrealized capital depreciation from (b) the Company's cumulative aggregate realized capital gains, in each case calculated from October 8, 2004 (the date the Company completed its initial public offering). Realized capital gains and losses include gains and losses on investments and foreign currencies, gains and losses on extinguishment of debt and from other assets, as well as any income tax and other expenses related to cumulative aggregate realized gains and losses. If such amount is positive at the end of such year, then the capital gains incentive fee for such year is equal to 20% of such amount, less the aggregate amount of capital gains incentive fees paid in all prior years. If such amount is negative, then there is no capital gains incentive fee for such year.

The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in the Company's portfolio when sold and (b) the accreted or amortized cost basis of such investment.

The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in the Company's portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.

The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in the Company's portfolio as of the applicable capital gains incentive fee calculation date and (b) the accreted or amortized cost basis of such investment.

Notwithstanding the foregoing, if the Company is required by GAAP to record an investment at its fair value as of the time of acquisition instead of at the actual amount paid for such investment by the Company (including, for example, as a result of the application of the asset acquisition method of accounting), then solely for the purposes of calculating the capital gains incentive fee, the "accreted or amortized cost basis" of an investment shall be an amount (the "Contractual Cost Basis") equal to (1) (x) the actual amount paid by the Company for such investment plus (y) any amounts recorded in the Company's financial statements as required by GAAP that are attributable to the accretion of such investment plus (z) any other adjustments made to the cost basis included in the Company's financial statements, including PIK interest or additional amounts funded (net of repayments) minus (2) any amounts recorded in the Company's financial statements as required by GAAP that are attributable to the amortization of such investment, whether such calculated Contractual Cost Basis is higher or lower than the fair value of such investment (as determined in accordance with GAAP) at the time of acquisition.

The base management fees, income based fees and capital gains incentive fees for the three and nine months ended September 30, 2022 and 2021 were as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Base management fees	\$ 78	\$ 65	\$ 226	\$ 184
Income based fees	\$ 63	\$ 53	\$ 171	\$ 158
Capital gains incentive fees(1)	\$ (37)	\$ 30	\$ (64)	\$ 133

(1) Calculated in accordance with GAAP as discussed below.

There was no capital gains incentive fee payable to the Company's investment adviser as calculated under the investment advisory and management agreement for the three and nine months ended September 30, 2022 and 2021. In addition, in accordance with GAAP, the Company had cumulatively accrued a capital gains incentive fee of \$72 as of September 30, 2022. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory and management agreement. This GAAP accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the capital gains incentive fee plus the aggregate cumulative unrealized capital appreciation, net of any expense associated with cumulative unrealized capital depreciation or appreciation. If such amount is positive at the end of a period, then GAAP requires the Company to record a capital gains incentive fee equal to 20% of such cumulative amount, less the aggregate amount of actual capital gains incentive fees paid or capital gains incentive fees accrued under GAAP in all prior periods. As of September 30, 2022, the Company has paid capital gains incentive fees since inception totaling \$133. The resulting accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reversal of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future.

Cash payment of any income based fees and capital gains incentive fees otherwise earned by the Company's investment adviser is deferred if during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to the Company's stockholders and (b) the change in net assets

(defined as total assets less indebtedness and before taking into account any income based fees and capital gains incentive fees payable during the period) is less than 7.0% of the Company's net assets (defined as total assets less indebtedness) at the beginning of such period. These calculations will be adjusted for any share issuances or repurchases. Any income based fees and capital gains incentive fees deferred for payment are carried over for payment in subsequent calculation periods to the extent such fees are payable under the terms of the investment advisory and management agreement.

The services of all investment professionals and staff of the Company's investment adviser, when and to the extent engaged in providing investment advisory and management services to the Company, and routine overhead expenses of such personnel allocable to such services, are provided and paid for by the Company's investment adviser. Under the investment advisory and management agreement, the Company bears all other costs and expenses of its operations and transactions, including, but not limited to, those relating to: organization; calculation of the Company's net asset value (including, but not limited to, the cost and expenses of any independent third-party valuation firm); expenses incurred by the Company's investment adviser payable to third parties, including agents, consultants or other advisers, in monitoring the Company's financial and legal affairs and in monitoring the Company's investments (including the cost of consultants hired to develop information technology systems designed to monitor the Company's investments) and performing due diligence on the Company's prospective portfolio companies; interest payable on indebtedness, if any, incurred to finance the Company's investments (including payments to third party vendors for financial information services); offerings of the Company's common stock and other securities; investment advisory and management fees; administration fees; fees payable to third parties, including agents, consultants or other advisers, relating to, or associated with, evaluating and making investments in portfolio companies, regardless of whether such transactions are ultimately consummated; transfer agent and custodial fees; registration fees; listing fees; taxes; independent directors' fees and expenses; costs of preparing and filing reports or other documents with the SEC; the costs of any reports, proxy statements or other notices to stockholders, including printing costs; to the extent the Company is covered by any joint insurance policies, the Company's allocable portion of the insurance premiums for such policies; direct costs and expenses of administration, including auditor and legal costs; and all other expenses incurred by the Company or its administrator in connection with administering the Company's business as described in more detail under "Administration Agreement" below.

Administration Agreement

The Company is party to an administration agreement, referred to herein as the "administration agreement", with its administrator, Ares Operations. Pursuant to the administration agreement, Ares Operations furnishes the Company with office equipment and clerical, bookkeeping and record keeping services at the Company's office facilities. Under the administration agreement, Ares Operations also performs, or oversees the performance of, the Company's required administrative services, which include, among other things, providing assistance in accounting, legal, compliance, operations, technology and investor relations, being responsible for the financial records that the Company is required to maintain and preparing reports to its stockholders and reports filed with the SEC. In addition, Ares Operations assists the Company in determining and publishing its net asset value, assists the Company in providing managerial assistance to its portfolio companies, oversees the preparation and filing of the Company's tax returns and the printing and dissemination of reports to its stockholders, and generally oversees the payment of its expenses and the performance of administrative and professional services rendered to the Company by others. Payments under the administration agreement are equal to an amount based upon its allocable portion of Ares Operations' overhead and other expenses (including travel expenses) incurred by Ares Operations in performing its obligations under the administration agreement, including the Company's allocable portion of the compensation, rent and other expenses of certain of its officers (including the Company's chief compliance officer, chief financial officer, chief accounting officer, general counsel, secretary, treasurer and assistant treasurer) and their respective staffs. The administration agreement may be terminated by either party without penalty upon 60 days' written notice to the other party.

For the three and nine months ended September 30, 2022, the Company incurred \$3 and \$9, respectively, in administrative fees, and \$4 and \$11, respectively, for the comparable periods in 2021. As of September 30, 2022 and December 31, 2021, a total of \$3 and \$4, respectively, in administrative fees were unpaid and included in "accounts payable and other liabilities" in the accompanying consolidated balance sheet.

4. INVESTMENTS

As of September 30, 2022 and December 31, 2021, investments consisted of the following:

	As of			
	September 30, 2022		December 31, 2021

-
- (1) The amortized cost represents the original cost adjusted for any accretion of discounts, amortization of premiums and PIK interest or dividends.
- (2) First lien senior secured loans include certain loans that the Company classifies as “unitranche” loans. The total amortized cost and fair value of the loans that the Company classified as “unitranche” loans were \$5,127 and \$4,998, respectively, as of September 30, 2022, and \$5,210 and \$5,163, respectively, as of December 31, 2021.
- (3) The proceeds from these certificates were applied to co-investments with Varagon and its clients to fund first lien senior secured loans to 21 and 19 different borrowers as of September 30, 2022 and December 31, 2021, respectively.
- (4) Includes the Company’s equity and subordinated loan investments in IHAM, as applicable.

The Company uses Global Industry Classification Standards for classifying the industry groupings of its portfolio companies. The industrial and geographic compositions of the Company's portfolio at fair value as of September 30, 2022 and December 31, 2021 were as follows:

Industry	As of	
	September 30, 2022	December 31, 2021

Mid-Atlantic	13.1	14.5
Northeast	4.6	4.8
International	5.0	4.4
Total	100.0 %	100.0 %

(1) Includes the Company's investment in the SDLP, which represented 5.3% and 4.9% of the total investment portfolio at fair value as of September 30, 2022 and December 31, 2021, respectively.

As of September 30, 2022 and December 31, 2021, loans on non-accrual status represented 1.6% of the total investments at amortized cost (or 0.9% at fair value) and 0.8% at amortized cost (or 0.5% at fair value), respectively.

Senior Direct Lending Program

The Company has established a joint venture with Varagon to make certain first lien senior secured loans, including certain stretch senior and unitranche loans, primarily to U.S. middle-market companies. Varagon was formed in 2013 as a lending platform by American International Group, Inc. and other partners. The joint venture is called the SDLP. In July 2016, the Company and Varagon and its clients completed the initial funding of the SDLP. The SDLP may generally commit and hold individual loans of up to \$350. The Company and other accounts managed by the Company's investment adviser and its affiliates may directly co-invest with the SDLP to accommodate larger transactions. The SDLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SDLP must be approved by an investment committee of the SDLP consisting of representatives of the Company and Varagon (with approval from a representative of each required).

The Company provides capital to the SDLP in the form of subordinated certificates (the "SDLP Certificates"), and Varagon and its clients provide capital to the SDLP in the form of senior notes, intermediate funding notes and SDLP Certificates. As of September 30, 2022 and December 31, 2021, the Company and a client of Varagon owned 87.5% and 12.5%, respectively, of the outstanding SDLP Certificates.

As of September 30, 2022 and December 31, 2021, the Company and Varagon and its clients had agreed to make capital available to the SDLP of \$6,150 and \$6,150, respectively, in the aggregate, of which \$1,444 and \$1,444, respectively, is to be made available from the Company. The Company will continue to provide capital to the SDLP in the form of SDLP Certificates, and Varagon and its clients will provide capital to the SDLP in the form of senior notes, intermediate funding notes and SDLP Certificates. This capital will only be committed to the SDLP upon approval of transactions by the investment committee of the SDLP as discussed above. Below is a summary of the funded capital and unfunded capital commitments of the SDLP.

	As of	
	September 30, 2022	December 31, 2021
Total capital funded to the SDLP(1)	\$ 4,772	\$ 4,168
Total capital funded to the SDLP by the Company(1)	\$ 1,121	\$ 987
Total unfunded capital commitments to the SDLP(2)	\$ 311	\$ 262
Total unfunded capital commitments to the SDLP by the Company(2)	\$ 73	\$ 62

- (1) At principal amount.
- (2) These commitments to fund delayed draw loans have been approved by the investment committee of the SDLP and will be funded if and when conditions to funding such delayed draw loans are met.

The SDLP Certificates pay a coupon equal to LIBOR plus 8.0% and also entitle the holders thereof to receive a portion of the excess cash flow from the loan portfolio, after expenses, which may result in a return to the holders of the SDLP Certificates that is greater than the stated coupon. The SDLP Certificates are junior in right of payment to the senior notes and intermediate funding notes.

The amortized cost and fair value of the SDLP Certificates held by the Company were \$1,121 and \$1,121, respectively, as of September 30, 2022 and \$987 and \$987, respectively, as of December 31, 2021. The Company's yield on its investment in the SDLP Certificates at amortized cost and fair value was 13.5% and 13.5%, respectively, as of September 30, 2022, and 13.5% and 13.5%, respectively, as of December 31, 2021. The interest income from the Company's investment in the SDLP Certificates and capital structuring service and other fees earned for the three and nine months ended September 30, 2022 and 2021 were as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Interest income	\$ 37	\$ 33	\$ 105	\$ 106
Capital structuring service and other fees	\$ 7	\$ 7	\$ 15	\$ 13

As of September 30, 2022 and December 31, 2021, the SDLP's portfolio was comprised entirely of first lien senior secured loans to U.S. middle-market companies and were in industries similar to the companies in the Company's portfolio. As of September 30, 2022, one of the loans was on non-accrual status. As of December 31, 2021, none of the loans were on non-accrual status. Below is a summary of the SDLP's portfolio.

	As of	
	September 30, 2022	December 31, 2021
Total first lien senior secured loans(1)(2)	\$ 4,798	\$ 4,194
Largest loan to a single borrower(1)	\$ 380	\$ 342
Total of five largest loans to borrowers(1)	\$ 1,616	\$ 1,540
Number of borrowers in the SDLP	21	19
Commitments to fund delayed draw loans(3)	\$ 311	\$ 262

(1) At principal amount.

(2) First lien senior secured loans include certain loans that the SDLP classifies as "unitranche" loans. As of September 30, 2022 and December 31, 2021, the total principal amount of loans in the SDLP portfolio that the SDLP classified as "unitranche" loans was \$3,737 and \$2,908, respectively.

(3) As discussed above, these commitments have been approved by the investment committee of the SDLP.

Ivy Hill Asset Management, L.P.

Ivy Hill Asset Management, L.P. ("IHAM") is an asset management services company and an SEC-registered investment adviser. The Company has made investments in IHAM, its wholly owned portfolio company, and previously made investments in certain vehicles managed by IHAM. As of September 30, 2022, IHAM had assets under management of approximately \$12.5 billion. As of September 30, 2022, IHAM managed 21 vehicles and served as the sub-manager/sub-servicer for one other vehicle (these vehicles managed or sub-managed/sub-serviced by IHAM are referred to as the "IHAM Vehicles"). IHAM earns fee income from managing the IHAM Vehicles and has also invested in certain of these vehicles as part of its business strategy. The amortized cost of IHAM's total investments as of September 30, 2022 and December 31, 2021 was 2,133 and \$966, respectively. For the three and nine months ended September 30, 2022, IHAM had management and incentive fee income of \$13 and \$34, respectively, and other investment-related income of \$42 and \$103, respectively. For the three and nine months ended September 30, 2021, IHAM had management and incentive fee income of \$8 and \$23, respectively, and other investment-related income of \$22 and \$64, respectively.

The amortized cost and fair value of the Company's investment in IHAM was \$1,809 and \$1,958, respectively, as of September 30, 2022, which was comprised of an equity investment of \$1,373 and \$1,522, respectively, and a debt investment of \$436 and \$436, respectively. The amortized cost and fair value of the Company's investment in IHAM was \$781 and \$936, respectively, as of December 31, 2021, which was comprised of an equity investment of \$765 and \$920, respectively, and a debt investment of \$16 and \$16, respectively. The dividend income received and interest income earned from IHAM for the three and nine months ended September 30, 2022 and 2021 were as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Dividend income	\$ 55	\$ 23	\$ 150	\$ 65
Interest income	\$ 8	\$ —	\$ 11	\$ 2

From time to time, IHAM or certain IHAM Vehicles may purchase investments from, or sell investments to, the Company. For any such sales or purchases by the IHAM Vehicles to or from the Company, the IHAM Vehicle must obtain approval from third parties unaffiliated with the Company or IHAM, as applicable. During the nine months ended September 30, 2022 and 2021, IHAM or certain of the IHAM Vehicles purchased \$2,415 and \$1,049, respectively, of loans from the Company. For the nine months ended September 30, 2022 and 2021, the Company recognized \$10 and \$5, respectively, of net realized losses from these sales. During the nine months ended September 30, 2022 and 2021, \$233 and \$108, respectively, of investment commitments were repaid to the Company by IHAM. During the nine months ended September 30, 2022, the Company purchased \$27 of investments from certain IHAM Vehicles.

IHAM is party to an administration agreement, referred to herein as the “IHAM administration agreement,” with Ares Operations. Pursuant to the IHAM administration agreement, Ares Operations provides IHAM with, among other things, office facilities, equipment, clerical, bookkeeping and record keeping services, services relating to the marketing and sale of interests in vehicles managed by IHAM, services of, and oversight of, custodians, depositories, accountants, attorneys, underwriters and such other persons in any other capacity deemed to be necessary. Under the IHAM administration agreement, IHAM reimburses Ares Operations for all of the actual costs associated with such services, including Ares Operations’ allocable portion of the compensation, rent and other expenses of its officers, employees and respective staff in performing its obligations under the IHAM administration agreement.

5. DEBT

In accordance with the Investment Company Act, the Company is allowed to borrow amounts such that its asset coverage, calculated pursuant to the Investment Company Act, is at least 150% after such borrowing. The Company’s asset coverage requirement applicable to senior securities was reduced from 200% to 150% effective June 21, 2019. As of September 30, 2022, the aggregate principal amount outstanding of the senior securities issued by the Company was \$11,853 and the Company’s asset coverage was 179%.

The Company’s outstanding debt as of September 30, 2022 and December 31, 2021 was as follows:

Revolving Credit Facility

The Company is party to a senior secured revolving credit facility (as amended and restated, the “Revolving Credit Facility”), that allows the Company to borrow up to \$4,843 at any one time outstanding. The Revolving Credit Facility consists of a \$1,087 term loan tranche and a \$3,756 revolving tranche. For \$1,009 of the term loan tranche, the stated maturity date is March 31, 2027. For \$28 of the term loan tranche, the stated maturity date is March 31, 2026. For the remaining \$50 of the term loan tranche, the stated maturity date is March 30, 2025. For \$3,499 of the revolving tranche, the end of the revolving period and the stated maturity date are March 31, 2026 and March 31, 2027, respectively. For \$107 of the revolving tranche, the end of the revolving period and the stated maturity date are March 31, 2025 and March 31, 2026, respectively. For the remaining \$150 of the revolving tranche, the end of the revolving period and the stated maturity date are March 30, 2024 and March 30, 2025, respectively. The Revolving Credit Facility also provides for a feature that allows the Company, under certain circumstances, to increase the overall size of the Revolving Credit Facility to a maximum of \$7,265. The Revolving Credit Facility generally requires payments of interest at the end of each Secured Overnight Financing Rate (“SOFR”) interest period, but no less frequently than quarterly, on SOFR based loans, and monthly payments of interest on other loans. Subsequent to the end of the respective revolving periods and prior to the respective stated maturity dates, the Company is required to repay the relevant outstanding principal amounts under both the term loan tranche and revolving tranche on a monthly basis in an amount equal to 1/12th of the outstanding principal amount at the end of the respective revolving periods.

Under the Revolving Credit Facility, the Company is required to comply with various covenants, reporting requirements and other customary requirements for similar revolving credit facilities, including, without limitation, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain restricted payments, (d) maintaining a certain minimum stockholders’ equity, (e) maintaining a ratio of total assets (less total liabilities not representing indebtedness) to total indebtedness of the Company and its consolidated subsidiaries (subject to certain exceptions) of not less than 1.5:1.0, (f) limitations on pledging certain unencumbered assets, and (g) limitations on the creation or existence of agreements that prohibit liens on certain properties of the Company and certain of its subsidiaries. These covenants are subject to important limitations and exceptions that are described in the documents governing the Revolving Credit Facility. Amounts available to borrow under the Revolving Credit Facility (and the incurrence of certain other permitted debt) are also subject to compliance with a borrowing base that applies different advance rates to different types of assets (based on their value as determined pursuant to the Revolving Credit Facility) that are pledged as collateral. As of September 30, 2022, the Company was in compliance in all material respects with the terms of the Revolving Credit Facility.

As of September 30, 2022 and December 31, 2021, there was \$1,787 and \$1,507 outstanding, respectively, under the Revolving Credit Facility. The Revolving Credit Facility also provides for a sub-limit for the issuance of letters of credit for up to an aggregate amount of \$250 with the ability to increase by an incremental \$50 on an uncommitted basis. As of September 30, 2022 and December 31, 2021, the Company had \$95 and \$68, respectively, in letters of credit issued through the Revolving Credit Facility. The amount available for borrowing under the Revolving Credit Facility is reduced by any letters of credit issued. As of September 30, 2022, there was \$2,961 available for borrowing (net of letters of credit issued) under the Revolving Credit Facility, subject to borrowing base restrictions.

Since March 31, 2022, the interest rate charged on the Revolving Credit Facility is based on SOFR plus a credit spread adjustment of 0.10% (or an alternate rate of interest for certain loans, commitments and/or other extensions of credit denominated in Sterling, Canadian Dollars, Euros and certain other foreign currencies plus a spread adjustment, if applicable) and an applicable spread of either 1.75% or 1.875% or an “alternate base rate” (as defined in the agreements governing the Revolving Credit Facility) plus an applicable spread of 0.75% or 0.875%, in each case, determined monthly based on the total amount of the borrowing base relative to the sum of (i) the greater of (a) the aggregate amount of revolving exposure and term loans outstanding under the Revolving Credit Facility and (b) 85% of the total commitments of the Revolving Credit Facility (or, if higher, the total revolving exposure) plus (ii) other debt, if any, secured by the same collateral as the Revolving Credit Facility. The Revolving Credit Facility allows for borrowings to be made using one, three or six month SOFR. Prior to March 31, 2022, the interest rate charged on the Revolving Credit Facility was based on LIBOR (or an alternate rate of interest for certain loans, commitments and/or other extensions of credit denominated in Sterling, Canadian Dollars, Euros and certain other foreign currencies) plus an applicable spread of either 1.75% or 1.875% or an “alternate base rate” (as defined in the agreements governing the Revolving Credit Facility) plus an applicable spread of 0.75% or 0.875%, in each case, determined monthly based on the total amount of the borrowing base relative to the sum of (i) the greater of (a) the aggregate amount of revolving exposure and term loans outstanding under the Revolving Credit Facility and (b) 85% of the total commitments of the Revolving Credit Facility (or, if higher, the total revolving exposure) plus (ii) other debt, if any, secured by the same collateral as the Revolving Credit Facility. As of September 30, 2022, the one, three and six month SOFR was 3.04%, 3.59% and 3.99%, respectively. As of September 30, 2022, the applicable spread in effect was 1.75%. In addition to the stated interest expense on the Revolving Credit Facility, the Company is required to pay a commitment fee of 0.375% per annum on any unused portion

of the Revolving Credit Facility. The Company is also required to pay a letter of credit fee of either 2.00% or 2.125% per annum on letters of credit issued, determined monthly based on the total amount of the borrowing base relative to the total commitments of the Revolving Credit Facility and other debt, if any, secured by the same collateral as the Revolving Credit Facility.

In December 2017, in connection with \$395 of the term loan tranche of the Revolving Credit Facility, the Company entered into a three-year interest rate swap agreement to mitigate its exposure to adverse fluctuations in interest rates for a total notional amount of \$395, which matured on January 4, 2021.

The Revolving Credit Facility is secured by certain assets in the Company's portfolio and excludes investments held by Ares Capital CP under the Revolving Funding Facility, those held by ACJB under the SMBC Funding Facility and those held by AFB under the BNP Funding Facility, each as described below, and certain other investments.

For the three and nine months ended September 30, 2022 and 2021, the components of interest and credit facility fees expense, cash paid for interest expense, average stated interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the Revolving Credit Facility were as follows:

Revolving Funding Facility

The Company and the Company's consolidated subsidiary, Ares Capital CP Funding LLC ("Ares Capital CP"), are party to a revolving funding facility (as amended, the "Revolving Funding Facility"), that allows Ares Capital CP to borrow up to \$1,775 at any one time outstanding. The Revolving Funding Facility is secured by all of the assets held by, and the membership interest in, Ares Capital CP. The end of the reinvestment period and the stated maturity date for the Revolving Funding Facility are December 29, 2024 and December 29, 2026, respectively.

Amounts available to borrow under the Revolving Funding Facility are subject to a borrowing base that applies different advance rates to different types of assets held by Ares Capital CP. Ares Capital CP is also subject to limitations with respect to the loans securing the Revolving Funding Facility, including restrictions on sector concentrations, loan size, payment frequency and status, collateral interests and loans with fixed rates, as well as restrictions on portfolio company leverage, all of which may also affect the borrowing base and therefore amounts available to borrow. The Company and Ares Capital CP are also required to comply with various covenants, reporting requirements and other customary requirements for similar facilities. These covenants are subject to important limitations and exceptions that are described in the agreements governing the Revolving Funding Facility. As of September 30, 2022, the Company and Ares Capital CP were in compliance in all material respects with the terms of the Revolving Funding Facility.

As of September 30, 2022 and December 31, 2021, there was \$932 and \$762 outstanding, respectively, under the Revolving Funding Facility. Since June 30, 2022, the interest rate charged on the Revolving Funding Facility is based on SOFR plus a credit spread adjustment of 0.10% or a "base rate" (as defined in the agreements governing the Revolving Funding Facility) plus an applicable spread of 1.90% per annum. From December 29, 2021 to June 29, 2022, the interest rate charged on the Revolving Funding Facility is based on one month LIBOR plus 1.90% per annum or a "base rate" (as defined in the agreements governing the Revolving Funding Facility) plus 1.00% per annum. Prior to December 29, 2021, the interest rate charged on the Revolving Funding Facility was based on one month LIBOR plus 2.00% per annum or a "base rate" plus 1.00% per annum. Since December 29, 2021, Ares Capital CP is also required to pay a commitment fee of between 0.50% and 1.25% per annum depending on the size of the unused portion of the Revolving Funding Facility. Prior to and including December 29, 2021, Ares Capital CP was required to pay a commitment fee of between 0.50% and 1.50% per annum depending on the size of the unused portion of the Revolving Funding Facility.

For the three and nine months ended September 30, 2022 and 2021, the components of interest and credit facility fees expense, cash paid for interest expense, average stated interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the Revolving Funding Facility were as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,

Average stated interest rate	4.38 %	2.69 %	3.17 %	2.35 %
Average outstanding balance	\$ 944	\$ 368	\$ 805	\$ 602

SMBC Funding Facility

The Company and the Company's consolidated subsidiary, Ares Capital JB Funding LLC ("ACJB"), are party to a revolving funding facility (as amended, the "SMBC Funding Facility"), with ACJB, as the borrower, and Sumitomo Mitsui Banking Corporation, as the administrative agent and collateral agent, that allows ACJB to borrow up to \$800 at any one time outstanding. The SMBC Funding Facility also provides for a feature that allows ACJB, subject to receiving certain consents, to increase the overall size of the SMBC Funding Facility to \$1,000. The SMBC Funding Facility is secured by all of the assets held by ACJB. The end of the reinvestment period and the stated maturity date for the SMBC Funding Facility are May 28, 2024 and May 28, 2026, respectively. The reinvestment period and the stated maturity date are both subject to two one-year extensions by mutual agreement.

Amounts available to borrow under the SMBC Funding Facility are subject to a borrowing base that applies an advance rate to assets held by ACJB. ACJB is also subject to limitations with respect to the loans securing the SMBC Funding Facility, including restrictions on sector concentrations, loan size, payment frequency and status, collateral interests and loans with fixed rates, as well as restrictions on portfolio company leverage, all of which may also affect the borrowing base and therefore amounts available to borrow. The Company and ACJB are also required to comply with various covenants, reporting requirements and other customary requirements for similar facilities. These covenants are subject to important limitations and exceptions that are described in the documents governing the SMBC Funding Facility. As of September 30, 2022, the Company and ACJB were in compliance in all material respects with the terms of the SMBC Funding Facility.

As of September 30, 2022 and December 31, 2021, there was \$456 and \$401 outstanding, respectively, under the SMBC Funding Facility. The interest rate charged on the SMBC Funding Facility is based on an applicable spread of either 1.75% or 2.00% over one month LIBOR or 0.75% or 1.00% over a "base rate" (as defined in the agreements governing the SMBC Funding Facility), in each case, determined monthly based on the amount of the average borrowings outstanding under the SMBC Funding Facility. As of September 30, 2022, the applicable spread in effect was 1.75%. ACJB is required to pay a commitment fee of between 0.50% and 1.00% per annum depending on the size of the unused portion of the SMBC Funding Facility.

For the three and nine months ended September 30, 2022 and 2021, the components of interest and credit facility fees expense, cash paid for interest expense, average stated interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the SMBC Funding Facility were as follows:

BNP Funding Facility

The Company and the Company's consolidated subsidiary, ARCC FB Funding LLC ("AFB"), are party to a revolving funding facility (as amended, the "BNP Funding Facility") with AFB, as the borrower, and BNP Paribas, as the administrative agent and lender, that allows AFB to borrow up to \$300 at any one time outstanding. The BNP Funding Facility is secured by all of the assets held by AFB. The end of the reinvestment period and the stated maturity date for the BNP Funding Facility are June 11, 2023 and June 11, 2025, respectively. The reinvestment period and the stated maturity date are both subject to a one-year extension by mutual agreement.

Amounts available to borrow under the BNP Funding Facility are subject to a borrowing base that applies an advance rate to assets held by AFB. AFB is also subject to limitations with respect to the loans securing the BNP Funding Facility, including restrictions on sector concentrations, loan size, payment frequency and status, collateral interests and loans with fixed rates, as well as restrictions on portfolio company leverage, all of which may also affect the borrowing base and therefore amounts available to borrow. The Company and AFB are also required to comply with various covenants, reporting requirements and other customary requirements for similar facilities. These covenants are subject to important limitations and exceptions that are described in the documents governing the BNP Funding Facility. As of September 30, 2022, the Company and AFB were in compliance in all material respects with the terms of the BNP Funding Facility.

As of September 30, 2022, there was \$175 outstanding under the BNP Funding Facility. As of December 31, 2021, there were no amounts outstanding under the BNP Funding Facility. Since June 29, 2021, the interest rate charged on the BNP Funding Facility is based on three month LIBOR, or a "base rate" (as defined in the agreements governing the BNP Funding Facility) plus a margin of (i) 1.80% during the reinvestment period and (ii) 2.30% following the reinvestment period. Prior to June 29, 2021, the interest rate charged on the BNP Funding Facility was based on three month LIBOR (subject to a floor of 0.45%), or a "base rate" (as defined in the agreements governing the BNP Funding Facility) plus a margin that generally ranged between 2.65% and 3.15% (depending on the types of assets such advances relate to), with a weighted average margin floor for all classes of advances of (i) 2.75% during the reinvestment period and (ii) 3.25% following the reinvestment period. As of September 30, 2022, the applicable spread in effect was 1.80%. AFB is required to pay a commitment fee of between 0.00% and 1.25% per annum depending on the size of the unused portion of the BNP Funding Facility.

For the three and nine months ended September 30, 2022 and 2021, the components of interest and credit facility fees expense, cash paid for interest expense, average stated interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the BNP Funding Facility were as follows:

Convertible Unsecured Notes

The Company has issued \$403 in aggregate principal amount of unsecured convertible notes that mature on March 1, 2024 (the "2024 Convertible Notes") unless previously converted or repurchased in accordance with the terms. The Company does not have the right to redeem the 2024 Convertible Notes prior to maturity. The 2024 Convertible Notes bear interest at a rate of 4.625% per annum, payable semi-annually.

In certain circumstances, assuming the conversion date below has not already passed, the 2024 Convertible Notes will be convertible into cash, shares of the Company's common stock or a combination of cash and shares of its common stock, at the Company's election, at the conversion rate (listed below as of September 30, 2022) subject to customary anti-dilution adjustments and the requirements of the indenture (the "Convertible Unsecured Notes Indenture"). Prior to the close of business on the business day immediately preceding the conversion date (listed below), holders may convert their 2024 Convertible

Notes only under certain circumstances set forth in the Convertible Unsecured Notes Indenture. On or after the conversion date until the close of business on the second scheduled trading day immediately preceding the maturity date for the 2024 Convertible Notes, holders may convert their 2024 Convertible Notes at any time. In addition, if the Company engages in certain corporate events as described in the Convertible Unsecured Notes Indenture, holders of the 2024 Convertible Notes may require the Company to repurchase for cash all or part of the 2024 Convertible Notes at a repurchase price equal to 100% of the principal amount of the 2024 Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

Certain key terms related to the convertible features for the 2024 Convertible Notes as of September 30, 2022 are listed below.

	2024 Convertible Notes
Conversion premium	15.0 %
Closing stock price at issuance	\$ 17.29
Closing stock price date	March 5, 2019
Conversion price (1)	\$ 19.78
Conversion rate (shares per one thousand dollar principal amount)(1)	50.5549
Conversion date	December 1, 2023

(1) Represents conversion price and conversion rate, as applicable, as of September 30, 2022, taking into account any applicable de minimis adjustments that will be made on the conversion date.

As of September 30, 2022, the principal amount of the 2024 Convertible Notes exceeded the value of the underlying shares multiplied by the per share closing price of the Company's common stock.

The Convertible Unsecured Notes Indenture contains certain covenants, including covenants requiring the Company to comply with Section 18(a)(1) (A) as modified by Section 61(a) of the Investment Company Act, or any successor provisions, and to provide financial information to the holders of the 2024 Convertible Notes under certain circumstances. These covenants are subject to important limitations and exceptions that are described in the Convertible Unsecured Notes Indenture. As of September 30, 2022, the Company was in compliance in all material respects with the terms of the Convertible Unsecured Notes Indenture.

The 2024 Convertible Notes as well as any other convertible notes outstanding during the periods presented (collectively referred to as the "Convertible Unsecured Notes") are accounted for in accordance with ASC 470-20, *Debt*. Upon conversion of the 2024 Convertible Notes, the Company intends to pay the outstanding principal amount in cash and to the extent that the conversion value exceeds the principal amount, the Company has the option to pay in cash or shares of the Company's common stock (or a combination of cash and shares) in respect of the excess amount, subject to the requirements of the Convertible Unsecured Notes Indentures. The Company has determined that the embedded conversion options in the 2024 Convertible Notes are not required to be separately accounted for as a derivative under GAAP. In accounting for the Convertible Unsecured Notes, the Company estimated at the time of issuance separate debt and equity components for the Convertible Unsecured Notes. An original issue discount equal to the equity components of the Convertible Unsecured Notes was recorded in "capital in excess of par value" in the accompanying consolidated balance sheet. Additionally, the issuance costs associated with the Convertible Unsecured Notes were allocated to the debt and equity components in proportion to the allocation of the proceeds and accounted for as debt issuance costs and equity issuance costs, respectively. As a result of adopting ASU 2020-06 on January 1, 2022, the Company is no longer separating the 2024 Convertible Notes into debt and equity components, and is instead accounting for the 2024 Convertible Notes entirely as debt.

In connection with the issuance of the 2024 Convertible Notes, the Company incurred debt issuance costs of \$4. The 2024 Convertible Notes were issued at a discount. The Company records interest expense comprised of both stated interest expense as well as accretion of any original issue discount or debt issuance costs.

As of September 30, 2022, the components of the carrying value of the 2024 Convertible Notes, the stated interest rate and the effective interest rate were as follows:

	2024 Convertible Notes
Principal amount of debt	\$ 403
Original issue discount, net of accretion	(1)
Debt issuance costs, net of amortization	(3)
Carrying value of debt	\$ 399
Stated interest rate	4.625 %
Effective interest rate(1)	5.10 %

(1) The effective interest rate of the 2024 Convertible Notes is equal to the stated interest rate plus the accretion of original issue discount and amortization of debt issuance costs.

In February 2022, the Company repaid in full the \$388 in aggregate principal amount of unsecured convertible notes (the “2022 Convertible Notes”) upon their maturity, resulting in a realized loss on the extinguishment of debt of \$48. The 2022 Convertible Notes bore interest at a rate of 4.60% per year, payable semi-annually.

For the three and nine months ended September 30, 2022 and 2021, the components of interest expense and cash paid for interest expense for the 2024 Convertible Notes, as well as any other convertible notes outstanding during the periods presented were as follows.

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Stated interest expense	\$ 5	\$ 8	\$ 15	\$ 25
Amortization of debt issuance costs	—	1	1	2
Accretion of original issue discount	—	1	2	4
Total interest expense	\$ 5	\$ 10	\$ 18	\$ 31
Cash paid for interest expense	\$ 9	\$ 17	\$ 26	\$ 34

Unsecured Notes

The Company has issued certain unsecured notes (each issuance of which is referred to herein using the “defined term” set forth under the “Unsecured Notes” column of the table below and collectively referred to as the “Unsecured Notes”), that pay interest semi-annually and all principal amounts are due upon maturity. Each of the Unsecured Notes may be redeemed in whole or in part at any time at the Company’s option at a redemption price equal to par plus a “make whole” premium, if applicable, as determined pursuant to the indentures governing each of the Unsecured Notes, plus any accrued and unpaid interest. Certain key terms related to the features for the Unsecured Notes as of September 30, 2022 are listed below.

Unsecured Notes	Aggregate Principal Amount Issued	Interest Rate	Original Issuance Date	Maturity Date
2023 Notes	\$ 750	3.500%	August 10, 2017	February 10, 2023
2024 Notes	\$ 900	4.200%	June 10, 2019	June 10, 2024
March 2025 Notes	\$ 600	4.250%	January 11, 2018	March 1, 2025
July 2025 Notes	\$ 1,250	3.250%	January 15, 2020	July 15, 2025
January 2026 Notes	\$ 1,150	3.875%	July 15, 2020	January 15, 2026
July 2026 Notes	\$ 1,000	2.150%	January 13, 2021	July 15, 2026
2027 Notes	\$ 500	2.875%	January 13, 2022	June 15, 2027
2028 Notes	\$ 1,250	2.875%	June 10, 2021	June 15, 2028
2031 Notes	\$ 700	3.200%	November 4, 2021	November 15, 2031

For the three and nine months ended September 30, 2022 and 2021, the components of interest expense and cash paid for interest expense for the Unsecured Notes, as well as any other unsecured notes outstanding during the periods presented are listed below.

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Stated interest expense	\$ 67	\$ 62	\$ 202	\$ 168

Total interest expense	\$ 69	\$ 65	\$ 208	\$ 175
Cash paid for interest expense	\$ 79	\$ 90	\$ 213	\$ 187

The Unsecured Notes contain certain covenants, including covenants requiring the Company to comply with Section 18(a)(1)(A) as modified by Section 61(a) of the Investment Company Act, or any successor provisions, and to provide financial information to the holders of such notes under certain circumstances. These covenants are subject to important limitations and exceptions set forth in the indentures governing such notes. As of September 30, 2022, the Company was in compliance in all material respects with the terms of the respective indentures governing each of the Unsecured Notes.

The 2024 Convertible Notes and the Unsecured Notes are the Company's senior unsecured obligations and rank senior in right of payment to any future indebtedness that is expressly subordinated in right of payment to the 2024 Convertible Notes and the Unsecured Notes; equal in right of payment to the Company's existing and future unsecured indebtedness that is not expressly subordinated; effectively junior in right of payment to any of its secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries, financing vehicles or similar facilities.

6. DERIVATIVE INSTRUMENTS

The Company enters into forward currency contracts from time to time to help mitigate the impact that an adverse change in foreign exchange rates would have on the value of the Company's investments denominated in foreign currencies. As of September 30, 2022 and December 31, 2021, the counterparty to these forward currency contracts was Royal Bank of Canada and Truist Financial Corporation, respectively.

In December 2017, in connection with \$395 of the term loan tranche of the Revolving Credit Facility, the Company entered into a three-year interest rate swap agreement to mitigate its exposure to adverse fluctuations in interest rates for a total notional amount of \$395, which matured on January 4, 2021. Under the interest rate swap agreement, the Company paid a fixed interest rate of 2.06% and received a floating rate based on the prevailing one-month LIBOR plus a spread of 1.75%.

Certain information related to the Company's derivative instruments as of September 30, 2022 and December 31, 2021 is presented below.

7. COMMITMENTS AND CONTINGENCIES

Investment Commitments

The Company has various commitments to fund investments in its portfolio as described below. As of September 30, 2022 and December 31, 2021, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans, including commitments to fund which are at (or substantially at) the Company's discretion:

	As of	
	September 30, 2022	December 31, 2021
Total revolving and delayed draw loan commitments	\$ 3,205	\$ 2,733
Less: funded commitments	(520)	(352)
Total unfunded commitments	2,685	2,381
Less: commitments substantially at discretion of the Company	—	—
Less: unavailable commitments due to borrowing base or other covenant restrictions	—	(4)
Total net adjusted unfunded revolving and delayed draw loan commitments	<u>\$ 2,685</u>	<u>\$ 2,377</u>

Included within the total revolving and delayed draw loan commitments as of September 30, 2022 and December 31, 2021 were delayed draw loan commitments totaling \$1,490 and \$1,273, respectively. The Company's commitment to fund delayed draw loans is triggered upon the satisfaction of certain pre-negotiated terms and conditions. Generally, the most significant and uncertain term requires the borrower to satisfy a specific use of proceeds covenant. The use of proceeds covenant typically requires the borrower to use the additional loans for the specific purpose of a permitted acquisition or permitted investment, for example. In addition to the use of proceeds covenant, the borrower is generally required to satisfy additional negotiated covenants (including specified leverage levels).

Also included within the total revolving loan commitments as of September 30, 2022 were commitments to issue up to \$352 in letters of credit through a financial intermediary on behalf of certain portfolio companies. As of September 30, 2022, the Company had \$41 in letters of credit issued and outstanding under these commitments on behalf of the portfolio companies. For all these letters of credit issued and outstanding, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. Of these letters of credit, \$9 expire in 2022 and \$32 expire in 2023.

The Company also has commitments to co-invest in the SDLP for the Company's portion of the SDLP's commitments to fund delayed draw loans to certain portfolio companies of the SDLP. See Note 4 for more information.

As of September 30, 2022 and December 31, 2021, the Company was party to subscription agreements to fund equity investments in private equity investment partnerships as follows:

	As of	
	September 30, 2022	December 31, 2021
Total private equity commitments	\$ 116	\$ 111
Less: funded private equity commitments	(66)	(68)
Total unfunded private equity commitments	50	43
Less: private equity commitments substantially at discretion of the Company	(50)	(43)
Total net adjusted unfunded private equity commitments	<u>\$ —</u>	<u>\$ —</u>

In the ordinary course of business, the Company may sell certain of its investments to third party purchasers. In particular, in connection with the sale of certain controlled portfolio company equity investments (as well as certain other sales) the Company has, and may continue to do so in the future, agreed to indemnify such purchasers for future liabilities arising from the investments and the related sale transaction. Such indemnification provisions have given rise to liabilities in the past and may do so in the future.

In addition, in the ordinary course of business, the Company may guarantee certain obligations in connection with its portfolio companies (in particular, certain controlled portfolio companies). Under these guarantee arrangements, payments may be required to be made to third parties if such guarantees are called upon or if the portfolio companies were to default on their related obligations, as applicable.

Lease Commitments

The Company is obligated under a number of operating leases pursuant to which it is leasing office facilities from third parties with remaining terms ranging from approximately one to four years. For certain of its operating leases, the Company had previously entered into subleases. The components of operating lease expense for the three and nine months ended September 30, 2022 and 2021 were as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Operating lease costs	\$ 2	\$ 3	\$ 7	\$ 8
Less: sublease income	(2)	(3)	(7)	(8)
Total operating lease costs (1)	\$ —	\$ —	\$ —	\$ —

(1) Total operating lease costs are incurred from office leases assumed as part of the Company's acquisition of American Capital, Ltd.

Supplemental cash flow information related to operating leases for the three and nine months ended September 30, 2022 and 2021 were as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Cash paid for amounts included in the measurement of operating lease liabilities	\$ 4	\$ 4	\$ 12	\$ 12

Supplemental balance sheet information as of September 30, 2022 and December 31, 2021 related to operating leases were as follows:

	As of	
	September 30, 2022	December 31, 2021
Operating lease ROU assets	\$ 21	\$ 27
Operating lease liabilities	\$ 33	\$ 43

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company follows ASC 825-10, *Recognition and Measurement of Financial Assets and Financial Liabilities* ("ASC 825-10"), which provides companies the option to report selected financial assets and liabilities at fair value. ASC 825-10 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company's choice to use fair value on its earnings. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. The Company has not elected the ASC 825-10 option to report selected financial assets and liabilities at fair value. With the exception of the line items entitled "other assets" and "debt," which are reported at amortized cost, the carrying value of all other assets and liabilities approximate fair value.

The Company also follows ASC 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10"), which expands the application of fair value accounting. ASC 820-10 defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure of fair value measurements. ASC 820-10 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. ASC 820-10 requires the Company to assume that the portfolio investment is sold in its principal market to market participants or, in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820-10, the Company has considered its principal market as the market in which the Company exits its portfolio investments with the greatest volume and level of activity. ASC 820-10 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC 820-10, these inputs are summarized in the three broad levels listed below:

- Level 1—Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2—Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, the Company continues to employ the net asset valuation policy approved by the Company's board of directors that is consistent with ASC 820-10 (see Note 2 for more information). Consistent with the Company's valuation policy, it evaluates the source of inputs, including any markets in which the Company's investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. The Company's valuation policy considers the fact that because there is not a readily available market value for most of the investments in the Company's portfolio, the fair value of the investments must typically be determined using unobservable inputs.

The Company's portfolio investments (other than as described below in the following paragraph) are typically valued using two different valuation techniques. The first valuation technique is an analysis of the enterprise value ("EV") of the portfolio company. Enterprise value means the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. The primary method for determining EV uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's EBITDA (generally defined as net income before net interest expense, income tax expense, depreciation and amortization). EBITDA multiples are typically determined based upon review of market comparable transactions and publicly traded comparable companies, if any. The Company may also employ other valuation multiples to determine EV, such as revenues or, in the case of certain portfolio companies in the power generation industry, kilowatt capacity. The second method for determining EV uses a discounted cash flow analysis whereby future expected cash flows of the portfolio company are discounted to determine a present value using estimated discount rates (typically a weighted average cost of capital based on costs of debt and equity consistent with current market conditions). The EV analysis is performed to determine the value of equity investments, the value of debt investments in portfolio companies where the Company has control or could gain control through an option or warrant security, and to determine if there is credit impairment for debt investments. If debt investments are credit impaired, an EV analysis may be used to value such debt investments; however, in addition to the methods outlined above, other methods such as a liquidation or wind-down analysis may be utilized to estimate enterprise value. The second valuation technique is a yield analysis, which is typically performed for non-credit impaired debt investments in portfolio companies where the Company does not own a controlling equity position. To determine fair value using a yield analysis, a current price is imputed for the investment based upon an assessment of the expected market yield for a similarly structured investment with a similar level of risk. In the yield analysis, the Company considers the current contractual interest rate, the maturity and other terms of the investment relative to risk of the company and the specific investment. A key determinant of risk, among other things, is the leverage through the investment relative to the enterprise value of the portfolio company. As debt investments held by the Company are substantially illiquid with no active transaction market, the Company depends on primary market data, including newly funded transactions, as well as secondary market data with respect to high yield debt instruments and syndicated loans, as inputs in determining the appropriate market yield, as applicable.

For other portfolio investments such as investments in the SDLP Certificates, discounted cash flow analysis is the primary technique utilized to determine fair value. Expected future cash flows associated with the investment are discounted to determine a present value using a discount rate that reflects estimated market return requirements.

The following tables summarize the significant unobservable inputs the Company used to value the majority of its investments categorized within Level 3 as of September 30, 2022 and December 31, 2021. The tables are not intended to be all-inclusive, but instead capture the significant unobservable inputs relevant to the Company's determination of fair values.

Changes in market yields, discount rates or EBITDA multiples, each in isolation, may change the fair value of certain of the Company's investments. Generally, an increase in market yields or discount rates or decrease in EBITDA multiples may result in a decrease in the fair value of certain of the Company's investments.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period. Additionally, the fair value of the Company's investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If the Company was required to liquidate a portfolio investment in a forced or liquidation sale, it could realize significantly less than the value at which the Company has recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

The following table presents fair value measurements of cash and cash equivalents, restricted cash, investments, derivatives and unfunded revolving and delayed draw loan commitments as of September 30, 2022:

- (3) Total principal amount of debt outstanding totaled \$11,853 and \$11,061 as of September 30, 2022 and December 31, 2021, respectively.
- (4) The fair value of these debt obligations would be categorized as Level 2 under ASC 820-10.

9. STOCKHOLDERS' EQUITY

The Company may from time to time issue and sell shares of its common stock through public or "at the market" offerings. In connection with the issuance of its common stock, the Company issued and sold the following shares of common stock during the nine months ended September 30, 2022:

Issuances of Common Stock	Number of Shares Issued	Gross Proceeds	Underwriting Fees/Offering Expenses	Net Proceeds	Average Offering Price Per Share(1)
Public offerings	20.4	\$ 432.0	\$ 22.0	\$ 410.0	\$ 20.13 (2)
“At the market” offerings	19.6	403.4	4.6	398.8	\$ 20.57
Total	40.0	\$ 835.4	\$ 26.6	\$ 808.8	

(1) Represents the gross offering price per share before deducting underwriting discounts and commissions and offering expenses.

(2) 11.2 and 9.2 of the shares were sold to the underwriters for a price of \$21.06 per share and \$19.00 per share, respectively, which the underwriters were then permitted to sell at variable prices to the public.

“At the Market” Offerings

The Company has entered into equity distribution agreements with several banks (the “Equity Distribution Agreements”). In connection with entering into the currently effective Equity Distribution Agreements, Ares Capital and each of the banks terminated the equity distribution agreements, each dated October 26, 2021, previously entered into with each of the several banks in accordance with their respective terms. The Equity Distribution Agreements provide that the Company may from time to time issue and sell, by means of “at the market” offerings, up to \$500 shares of its common stock. Subject to the terms and conditions of the Equity Distribution Agreements, sales of common stock, if any, may be made in transactions that are deemed to be “at the market” offerings as defined in Rule 415(a)(4) under the Securities Act of 1933, as amended. Under the currently effective Equity Distribution Agreements, common stock with an aggregate offering amount of \$413 remained available for issuance as of September 30, 2022.

See Note 11 for information regarding shares of common stock issued or purchased in accordance with the Company’s dividend reinvestment plan.

Stock Repurchase Program

The Company is authorized under its stock repurchase program to purchase up to \$500 in the aggregate of its outstanding common stock in the open market at certain thresholds below its net asset value per share, in accordance with the guidelines specified in Rule 10b-18 under the Securities Exchange Act of 1934, as amended. The timing, manner, price and amount of any share repurchases will be determined by the Company, in its sole discretion, based upon an evaluation of economic and market conditions, stock price, applicable legal and regulatory requirements and other factors. The stock repurchase program does not require the Company to repurchase any specific number of shares of common stock or any shares of common stock at all. Consequently, the Company cannot assure stockholders that any specific number of shares of common stock, if any, will be repurchased under the stock repurchase program. The expiration date of the stock repurchase program is February 15, 2023. The program may be suspended, extended, modified or discontinued at any time. As of September 30, 2022, there was \$500 available for repurchases under the stock repurchase program.

During the nine months ended September 30, 2022 and 2021, the Company did not repurchase any shares of the Company’s common stock under the stock repurchase program.

10. EARNINGS PER SHARE

The following information sets forth the computations of basic and diluted net increase in stockholders' equity resulting from operations per share for the three and nine months ended September 30, 2022 and 2021:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Net increase in stockholders' equity resulting from operations—basic	\$ 104	\$ 334	\$ 426	\$ 1,185
Adjustment for interest expense on 2024 Convertible Notes(1)	4	—	13	—
Net increase in stockholders' equity resulting from operations—diluted	\$ 108	\$ 334	\$ 439	\$ 1,185
Weighted average shares of common stock outstanding—basic	503	453	492	441
Assumed conversion of 2024 Convertible Notes	20	—	20	—
Weighted average shares of common stock outstanding—diluted	523	453	512	441
Net increase in stockholders' equity resulting from operations per share—basic	\$ 0.21	\$ 0.73	\$ 0.86	\$ 2.68
Net increase in stockholders' equity resulting from operations per share—diluted	\$ 0.21	\$ 0.73	\$ 0.86	\$ 2.68

(1) Includes the impact of income based fees.

Subsequent to the adoption of ASU 2020-06 on January 1, 2022, for the purpose of calculating diluted net increase in stockholders' equity resulting from operations per share for the three and nine months ended September 30, 2022, the Company utilized the if-converted method which assumes full share settlement for the aggregate value of the 2024 Convertible Notes. Under the allowed modified retrospective method, diluted net increase in stockholders' equity resulting from operations per share for prior periods were not restated to reflect the impact of ASU 2020-06. Prior to the adoption of ASU 2020-06, for the purpose of calculating diluted net increase in stockholders' equity resulting from operations per share, the average closing price of the Company's common stock for the three and nine months ended September 30, 2021 was more than the conversion price for each of the Convertible Unsecured Notes outstanding as of September 30, 2021. Therefore, the underlying shares for the intrinsic value of the embedded options in the Convertible Unsecured Notes outstanding during the three and nine months ended September 30, 2021 had no impact on the computation of diluted net increase in stockholders' equity resulting from operations per share.

11. DIVIDENDS AND DISTRIBUTIONS

The following table summarizes the Company's dividends declared and payable during the nine months ended September 30, 2022 and 2021:

Date declared	Record date	Payment date	Per share amount	Total amount

Total dividends declared and payable for the nine months ended September 30, 2021			<u>\$ 1.21</u>	<u>\$ 541</u>

(1) Represents an additional dividend.

The Company has a dividend reinvestment plan, whereby the Company may buy shares of its common stock in the open market or issue new shares in order to satisfy dividend reinvestment requests. When the Company issues new shares in connection with the dividend reinvestment plan, the issue price is equal to the closing price of its common stock on the dividend payment date. Dividend reinvestment plan activity for the nine months ended September 30, 2022 and 2021, was as follows:

	For the Nine Months Ended September 30,	
	2022	2021
Shares issued	0.6	1.5
Average issue price per share	\$ 20.95	\$ 19.52
Shares purchased by plan agent to satisfy dividends declared and payable during the period for stockholders	1.6	—
Average purchase price per share	\$ 17.85	\$ —

12. RELATED PARTY TRANSACTIONS

In accordance with the investment advisory and management agreement, the Company bears all costs and expenses of the operation of the Company and reimburses its investment adviser or its affiliates for certain of such costs and expenses paid for by the investment adviser or its affiliates on behalf of the Company. For the three and nine months ended September 30, 2022, the Company's investment adviser or its affiliates incurred and the Company reimbursed such expenses totaling \$1 and \$3, respectively. For the three and nine months ended September 30, 2021, the Company's investment adviser or its affiliates incurred and the Company reimbursed such expenses totaling \$1 and \$4, respectively.

The Company has entered into agreements with Ares Management LLC and IHAM, pursuant to which Ares Management LLC and IHAM are entitled to use the Company's proprietary portfolio management software. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our financial statements and notes thereto appearing elsewhere in this Quarterly Report. In addition, some of the statements in this Quarterly Report (including in the following discussion) constitute forward- looking statements, which relate to future events or the future performance or financial condition of Ares Capital Corporation (the "Company," "Ares Capital," "we," "us," or "our"). The forward-looking statements contained in this report involve a number of risks and uncertainties, including statements concerning:

- our, or our portfolio companies', future business, operations, operating results or prospects;
- the return or impact of current and future investments;
- the impact of global health crises, such as the ongoing coronavirus ("COVID-19") pandemic, on our or our portfolio companies' business and the U.S. and global economy;
- the impact of a protracted decline in the liquidity of credit markets on our business;
- the impact of the elimination of the London Interbank Offered Rate ("LIBOR") and implementation of alternatives to LIBOR on our operating results;
- changes in the general economy, slowing economy, rising inflation and risk of recession;
- the impact of changes in laws or regulations (including the interpretation thereof), including tax laws, such as the recently announced Inflation Reduction Act of 2022, the Coronavirus Aid, Relief and Economic Security Act of 2020 and the American Rescue Plan Act of 2021, governing our operations or the operations of our portfolio companies or the operations of our competitors;
- the valuation of our investments in portfolio companies, particularly those having no liquid trading market;
- our ability to recover unrealized losses;
- market conditions and our ability to access different debt markets and additional debt and equity capital and our ability to manage our capital resources effectively;
- our contractual arrangements and relationships with third parties;
- the state of the general economy;
- the impact of supply chain constraints on our portfolio companies and the global economy;
- uncertainty surrounding global financial stability;
- the social, geopolitical, financial, trade and legal implications of Brexit;
- the war in Ukraine and Russia and the potential for volatility in energy prices and other commodities and their impact on the industries in which we invest;
- the financial condition of our current and prospective portfolio companies and their ability to achieve their objectives;
- the impact of information technology system failures, data security breaches, data privacy compliance, network disruptions, and cybersecurity attacks;
- our ability to raise capital in the private and public debt markets;
- our ability to anticipate and identify evolving market expectations with respect to environmental, social and governance matters, including the environmental impacts of our portfolio companies' supply chain and operations;
- our ability to successfully complete and integrate any acquisitions;

- the outcome and impact of any litigation;
- the adequacy of our cash resources and working capital;
- the timing, form and amount of any dividend distributions;
- the timing of cash flows, if any, from the operations of our portfolio companies; and
- the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments.

We use words such as “anticipates,” “believes,” “expects,” “intends,” “will,” “should,” “may” and similar expressions to identify forward-looking statements, although not all forward-looking statements include these words. Our actual results and condition could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth in “Risk Factors” and elsewhere in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021 and in this Quarterly Report.

We have based the forward-looking statements included in this Quarterly Report on information available to us on the filing date of this Quarterly Report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the SEC, including annual reports on Form 10-K, registration statements on Form N-2, quarterly reports on Form 10-Q and current reports on Form 8-K.

OVERVIEW

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the “Investment Company Act”).

We are externally managed by Ares Capital Management LLC (“Ares Capital Management” or our “investment adviser”), a subsidiary of Ares Management Corporation (NYSE: ARES) (“Ares Management”), a publicly traded, leading global alternative investment manager, pursuant to our investment advisory and management agreement. Ares Operations LLC (“Ares Operations” or our “administrator”), a subsidiary of Ares Management, provides certain administrative and other services necessary for us to operate.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first lien senior secured loans (including “unitranche” loans, which are loans that combine both senior and subordinated debt, generally in a first lien position) and second lien senior secured loans. In addition to senior secured loans, we also invest in subordinated loans (sometimes referred to as mezzanine debt), which in some cases includes an equity component and preferred equity.

To a lesser extent, we also make common equity investments, which have generally been non-control equity investments of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments.

Since our initial public offering (“IPO”) on October 8, 2004 through September 30, 2022, our exited investments resulted in an asset level realized gross internal rate of return to us of approximately 14% (based on original cash invested, net of syndications, of approximately \$38.2 billion and total proceeds from such exited investments of approximately \$49.1 billion). Internal rate of return is the discount rate that makes the net present value of all cash flows related to a particular investment equal to zero. Internal rate of return is gross of expenses related to investments as these expenses are not allocable to specific investments. Investments are considered to be exited when the original investment objective has been achieved through the receipt of cash and/or non-cash consideration upon the repayment of a debt investment or sale of an investment or through the determination that no further consideration was collectible and, thus, a loss may have been realized. Approximately 58% of these exited investments resulted in an asset level realized gross internal rate of return to us of 10% or greater.

Additionally, since our IPO on October 8, 2004 through September 30, 2022, our realized gains have exceeded our realized losses by approximately \$1.1 billion (excluding a one-time gain on the acquisition of Allied Capital Corporation (“Allied Capital”) in April 2010 (the “Allied Acquisition”) and realized gains/losses from the extinguishment of debt and other transactions). For this same time period, our average annualized net realized gain rate was approximately 1.0% (excluding a one-time gain on the acquisition of Allied Capital and realized gains/losses from the extinguishment of debt and other transactions). Net realized gain/loss rates for a particular period are the amount of net realized gains/losses during such period divided by the average quarterly investments at amortized cost in such period.

Information included herein regarding internal rates of return, realized gains and losses and annualized net realized gain rates are historical results relating to our past performance and are not necessarily indicative of future results, the achievement of which cannot be assured.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in “qualifying assets,” including securities and indebtedness of private U.S. companies and certain public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less. We also may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. Specifically, as part of this 30% basket, we may invest in entities that are not considered “eligible portfolio companies” (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

We have elected to be treated as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (the “Code”), and operate in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must, among other requirements, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Code, for each year. Pursuant to this election, we generally will not have to pay U.S. federal corporate-level taxes on any income that we distribute to our stockholders provided that we satisfy those requirements.

MACRO-ECONOMIC ENVIRONMENT

Credit markets continued to be under pressure during the first half of 2022 amid a risk-off environment and sustained macro-economic uncertainty due to record-high inflation, tighter financial conditions and growing recession risk. Central banks have remained focused on restoring price stability by raising interest rates and have signaled that growth may be hindered until inflation comes under control.

PORTFOLIO AND INVESTMENT ACTIVITY

Our investment activity for the three months ended September 30, 2022 and 2021 is presented below.

(1) New investment commitments include new agreements to fund revolving loans or delayed draw loans. See Note 7 to our consolidated financial statements for the three and nine months ended September 30, 2022, for more information on our commitments to fund revolving loans or delayed draw loans.

(2) Includes both funded and unfunded commitments. Of these new investment commitments, we funded \$1.9 billion and \$2.2 billion for the three months ended September 30, 2022 and 2021, respectively.

- (3) Includes both funded and unfunded commitments. For the three months ended September 30, 2022 and 2021, investment commitments exited included exits of unfunded commitments of \$115 million and \$274 million, respectively.
- (4) For the three months ended September 30, 2022, net fundings of first lien secured revolving loans were \$60 million. For the three months ended September 30, 2021, net repayments of first lien secured revolving loans were \$15 million.
- (5) See “Senior Direct Lending Program” below and Note 4 to our consolidated financial statements for the three and nine months ended September 30, 2022 for more information on the SDLP (as defined below).
- (6) Includes our equity and subordinated loan investments in IHAM, as applicable.
- (7) Number of new investment commitments represents each commitment to a particular portfolio company or a commitment to multiple companies as part of an individual transaction (e.g., the purchase of a portfolio of investments).
- (8) “Weighted average yield of debt and other income producing securities” is computed as (a) the annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount or premium earned on accruing debt and other income producing securities (including the annualized amount of the dividend received by us related to our equity investment in IHAM during the most recent quarter end, as applicable), divided by (b) the total accruing debt and other income producing securities at amortized cost or at fair value (including the amortized cost or fair value of our equity investment in IHAM as applicable), as applicable.
- (9) Represents fair value for investments in the portfolio as of the most recent prior quarter end, if applicable.

As of September 30, 2022 and December 31, 2021, our investments consisted of the following:

(in millions)	As of			
	September 30, 2022		December 31, 2021	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
First lien senior secured loans(1)	\$ 9,821	\$ 9,509	\$ 9,583	\$ 9,459

Total	\$ 21,469	\$ 21,339	\$ 19,810	\$ 20,009

- (1) First lien senior secured loans include certain loans that we classify as “unitranche” loans. The total amortized cost and fair value of the loans that we classified as “unitranche” loans were \$5.1 billion and \$5.0 billion, respectively, as of September 30, 2022, and \$5.2 billion and \$5.2 billion, respectively, as of December 31, 2021.
- (2) The proceeds from these certificates were applied to co-investments with Varagon Capital Partners (“Varagon”) and its clients to fund first lien senior secured loans to 21 and 19 different borrowers as of September 30, 2022 and December 31, 2021, respectively.
- (3) Includes our equity and subordinated loan investments in IHAM, as applicable.

We have commitments to fund various revolving and delayed draw senior secured and subordinated loans, including commitments to fund which are at (or substantially at) our discretion. Our commitment to fund delayed draw loans is triggered upon the satisfaction of certain pre-negotiated terms and conditions. Generally, the most significant and uncertain term requires the borrower to satisfy a specific use of proceeds covenant. The use of proceeds covenant typically requires the borrower to use the additional loans for the specific purpose of a permitted acquisition or permitted investment, for example. In addition to the

use of proceeds covenant, the borrower is generally required to satisfy additional negotiated covenants (including specified leverage levels). We are also party to subscription agreements to fund equity investments in private equity investment partnerships. See Note 7 to our consolidated financial statements for the three and nine months ended September 30, 2022 for more information on our unfunded commitments, including commitments to issue letters of credit, related to certain of our portfolio companies.

The weighted average yields at amortized cost and fair value of the following portions of our portfolio as of September 30, 2022 and December 31, 2021 were as follows:

	As of			
	September 30, 2022		December 31, 2021	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Debt and other income producing securities(1)	10.7 %	10.8 %	8.7 %	8.7 %
Total portfolio(2)	9.6 %	9.7 %	7.9 %	7.9 %
First lien senior secured loans(3)	9.4 %	9.7 %	7.2 %	7.3 %
Second lien senior secured loans(3)	10.3 %	10.9 %	8.6 %	8.8 %
Subordinated certificates of the SDLP(3)(6)	13.5 %	13.5 %	13.5 %	13.5 %

Other income producing equity securities(5)	11.3 %	11.1 %	10.6 %	10.0 %

- (1) “Weighted average yield on debt and other income producing securities” is computed as (a) the annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount or premium earned on accruing debt and other income producing securities (including the annualized amount of the dividend received by us related to our equity investment in IHAM during the most recent quarter end), divided by (b) the total accruing debt and other income producing securities at amortized cost or at fair value (including the amortized cost or fair value of our equity investment in IHAM as applicable), as applicable.
- (2) “Weighted average yield on total portfolio” is computed as (a) the annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount or premium earned on accruing debt and other income producing securities (including the annualized amount of the dividend received by us related to our equity investment in IHAM during the most recent quarter end), divided by (b) total investments at amortized cost or at fair value, as applicable.
- (3) “Weighted average yields” are computed as (a) the annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount or premium earned on the relevant accruing investments, divided by (b) the total relevant investments at amortized cost or at fair value, as applicable.
- (4) Represents our equity investment in IHAM. The yield on IHAM is computed as (a) the annualized amount of the dividend received by us related to our equity investment in IHAM during the most recent quarter end, divided by (b) the amortized cost or fair value of our equity investment in IHAM, as applicable.
- (5) “Weighted average yield on other income producing equity securities” is computed as (a) the yield earned on the relevant income producing equity securities, divided by (b) the total relevant income producing equity securities at amortized cost or fair value, as applicable.
- (6) The proceeds from these certificates were applied to co-investments with Varagon and its clients to fund first lien senior secured loans.

Ares Capital Management employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, our investment adviser grades the credit risk of all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended primarily to reflect the underlying risk of a portfolio investment relative to our initial cost basis in respect of such portfolio investment (i.e., at the time of origination or acquisition), although it may also take into account under certain circumstances the performance of the portfolio company’s business, the collateral coverage of the investment and other relevant factors. The grade of a portfolio investment may be reduced or increased over time. The following is a description of each investment grade:

Investment grade	Description
4	Involves the least amount of risk to our initial cost basis. The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit.
3	Involves a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition. This portfolio company is generally performing as expected and the risk factors to our ability to ultimately recoup the cost of our investment are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a grade of 3.
2	Indicates that the risk to our ability to recoup the initial cost basis of such investment has increased materially since origination or acquisition, including as a result of factors such as declining performance and non-compliance with debt covenants; however, payments are generally not more than 120 days past due. For investments graded 2, our investment adviser enhances its level of scrutiny over the monitoring of such portfolio company.
1	Indicates that the risk to our ability to recoup the initial cost basis of such investment has substantially increased since origination or acquisition, and the portfolio company likely has materially declining performance. For debt investments with an investment grade of 1, most or all of the debt covenants are out of compliance and payments are substantially delinquent. For investments graded 1, it is anticipated that we will not recoup our initial cost basis and may realize a substantial loss of our initial cost basis upon exit. For investments graded 1, our investment adviser enhances its level of scrutiny over the monitoring of such portfolio company.

Set forth below is the grade distribution of our portfolio companies as of September 30, 2022 and December 31, 2021:

(dollar amounts in millions)	As of							
	September 30, 2022				December 31, 2021			
	Fair Value	%	Number of Companies	%	Fair Value	%	Number of Companies	%
Grade 4	\$ 4,332	20.3 %	67	15.0 %	\$ 3,422	17.1 %	49	12.7 %
Grade 3	15,982	74.9	344	75.0	15,529	77.6	294	76.0
Grade 2	968	4.5	28	6.0	910	4.5	24	6.1
Grade 1	57	0.3	19	4.0	148	0.8	20	5.2
Total	<u>\$ 21,339</u>	<u>100.0 %</u>	<u>458</u>	<u>100.0 %</u>	<u>\$ 20,009</u>	<u>100.0 %</u>	<u>387</u>	<u>100.0 %</u>

As of September 30, 2022 and December 31, 2021, the weighted average grade of the investments in our portfolio at fair value was 3.2 and 3.1, respectively.

As of September 30, 2022 and December 31, 2021, loans on non-accrual status represented 1.6% of the total investments at amortized cost (or 0.9% at fair value) and 0.8% at amortized cost (or 0.5% at fair value), respectively.

Senior Direct Lending Program

We have established a joint venture with Varagon to make certain first lien senior secured loans, including certain stretch senior and unitranche loans, primarily to U.S. middle-market companies. Varagon was formed in 2013 as a lending platform by American International Group, Inc. and other partners. The joint venture is called the Senior Direct Lending Program, LLC (d/b/a the “Senior Direct Lending Program” or the “SDLP”). In July 2016, we and Varagon and its clients completed the initial funding of the SDLP. The SDLP may generally commit and hold individual loans of up to \$350 million. The SDLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SDLP must be approved by an investment committee of the SDLP consisting of representatives of ours and Varagon (with approval from a representative of each required).

We provide capital to the SDLP in the form of subordinated certificates (the “SDLP Certificates”), and Varagon and its clients provide capital to the SDLP in the form of senior notes, intermediate funding notes and SDLP Certificates. As of September 30, 2022, we and a client of Varagon owned 87.5% and 12.5%, respectively, of the outstanding SDLP Certificates.

As of September 30, 2022 and December 31, 2021, we and Varagon and its clients had agreed to make capital available to the SDLP of \$6.2 billion and \$6.2 billion, respectively, in the aggregate, of which \$1.4 billion and \$1.4 billion,

respectively, is to be made available from us. This capital will only be committed to the SDLP upon approval of transactions by the investment committee of the SDLP. Below is a summary of the funded capital and unfunded capital commitments of the SDLP.

(in millions)	As of	
	September 30, 2022	December 31, 2021
Total capital funded to the SDLP(1)	\$ 4,772	\$ 4,168
Total capital funded to the SDLP by the Company(1)	\$ 1,121	\$ 987
Total unfunded capital commitments to the SDLP(2)	\$ 311	\$ 262
Total unfunded capital commitments to the SDLP by the Company(2)	\$ 73	\$ 62

(1) At principal amount.

(2) These commitments to fund delayed draw loans have been approved by the investment committee of the SDLP and will be funded if and when conditions to funding such delayed draw loans are met.

The SDLP Certificates pay a coupon equal to LIBOR plus 8.0% and also entitle the holders thereof to receive a portion of the excess cash flow from the loan portfolio, after expenses, which may result in a return to the holders of the SDLP Certificates that is greater than the stated coupon. The SDLP Certificates are junior in right of payment to the senior notes and intermediate funding notes.

The amortized cost and fair value of our SDLP Certificates were \$1.1 billion and \$1.1 billion, respectively, as of September 30, 2022 and \$1.0 billion and \$1.0 billion, respectively, as of December 31, 2021. Our yield on our investment in the SDLP Certificates at amortized cost and fair value was 13.5% and 13.5%, respectively, as of September 30, 2022 and 13.5% and 13.5%, respectively, as of December 31, 2021. The interest income from our investment in the SDLP Certificates and capital structuring service and other fees earned for the three and nine months ended September 30, 2022 and 2021 were as follows:

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Interest income	\$ 37	\$ 33	\$ 105	\$ 106
Capital structuring service and other fees	\$ 7	\$ 7	\$ 15	\$ 13

As of September 30, 2022 and December 31, 2021, the SDLP portfolio was comprised entirely of first lien senior secured loans primarily to U.S. middle-market companies and were in industries similar to the companies in our portfolio. As of September 30, 2022, one of the loans was on non-accrual status. As of December 31, 2021, none of the loans were on non-accrual status. Below is a summary of the SDLP's portfolio as of September 30, 2022 and December 31, 2021:

(dollar amounts in millions)	As of	
	September 30, 2022	December 31, 2021
Total first lien senior secured loans(1)(2)	\$ 4,798	\$ 4,194
Weighted average yield on first lien senior secured loans(3)	8.7 %	6.7 %
Largest loan to a single borrower(1)	\$ 380	\$ 342
Total of five largest loans to borrowers(1)	\$ 1,616	\$ 1,540
Number of borrowers in the SDLP	21	19
Commitments to fund delayed draw loans(4)	\$ 311	\$ 262

(1) At principal amount.

(2) First lien senior secured loans include certain loans that the SDLP classifies as "unitranche" loans. As of September 30, 2022 and December 31, 2021, the total principal amount of loans in the SDLP portfolio that the SDLP classified as "unitranche" loans was \$3,737 million and \$2,908 million, respectively.

- (3) Computed as (a) the annual stated interest rate on accruing first lien senior secured loans, divided by (b) total first lien senior secured loans at principal amount.
- (4) As discussed above, these commitments have been approved by the investment committee of the SDLP.

RESULTS OF OPERATIONS

For the three and nine months ended September 30, 2022 and 2021

Operating results for the three and nine months ended September 30, 2022 and 2021 were as follows:

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Total investment income	\$ 537	\$ 442	\$ 1,456	\$ 1,291
Total expenses	235	253	676	771
Net investment income before income taxes	772	189	2,132	520
Income tax expense, including excise tax	14	5	37	21
Net investment income	758	184	2,095	499
Net realized gains on investments, foreign currency and other transactions	—	149	55	267
Net unrealized gains (losses) on investments, foreign currency and other transactions	(184)	1	(324)	462
Realized loss on extinguishment of debt	—	—	(48)	(43)
Net increase in stockholders' equity resulting from operations	\$ 574	\$ 334	\$ 1,778	\$ 1,185

Net income can vary substantially from period to period due to various factors, including acquisitions, the level of new investment commitments, the recognition of realized gains and losses and unrealized appreciation and depreciation. As a result, comparisons of net increase in stockholders' equity resulting from operations may not be meaningful.

Investment Income

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Interest income from investments	\$ 385	\$ 317	\$ 1,014	\$ 911
Capital structuring service fees	32	59	94	190
Dividend income	107	54	314	158
Other income	13	12	34	32
Total investment income	\$ 537	\$ 442	\$ 1,456	\$ 1,291

Interest income from investments for the three and nine months ended September 30, 2022 increased from the comparable periods in 2021 primarily as a result of an increase in the average size of our portfolio as well as the impact of rising interest rates. The average size and weighted average yield of our portfolio at amortized cost for the three and nine months ended September 30, 2022 and 2021 were as follows:

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Average size of portfolio	\$ 21,291	\$ 17,362	\$ 20,353	\$ 16,498
Weighted average yield on portfolio	9.2 %	8.0 %	8.5 %	8.0 %

Capital structuring service fees for the three and nine months ended September 30, 2022 decreased from the comparable periods in 2021 primarily due to a decrease in the weighted average capital structuring service fee percentage and a decrease in new investment commitments during the three and nine months ended September 30, 2022. During the three and nine months ended September 30, 2021, we experienced higher fee opportunities as compared to the comparable periods in 2022 primarily due to a higher number of transactions in new portfolio companies. The new investment commitments and weighted average capital structuring service fee percentages for the three and nine months ended September 30, 2022 and 2021 were as follows:

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
New investment commitments	\$ 2,242	\$ 3,110	\$ 7,352	\$ 9,707
Weighted average capital structuring service fee percentages(1)	1.4 %	1.9 %	1.3 %	2.0 %

- (1) Excluding \$342 and \$1,261 million of investment commitments to IHAM for the three and nine months ended September 30, 2022, respectively, the weighted average capital structuring service fee percentage was 1.7% and 1.5%, respectively. Excluding \$52 million of investment commitments to IHAM for the three and nine months ended September 30, 2021, the weighted average capital structuring service fee percentage was 2.0% and 2.0%, respectively.

Dividend income for the three and nine months ended September 30, 2022 and 2021 were as follows:

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Dividend income received from IHAM	\$ 55	\$ 23	\$ 150	\$ 65
Recurring dividends	51	30	135	75
Non-recurring dividends	1	1	29	18
Total dividend income	\$ 107	\$ 54	\$ 314	\$ 158

Dividend income received from IHAM for the three and nine months ended September 30, 2022 increased from the comparable periods primarily due to the continued increase in IHAM's assets under management, which generally has been supported by our additional investments in IHAM. Recurring dividend income for the three and nine months ended September 30, 2022 increased from the comparable periods in 2021 primarily due to an increase in yielding preferred equity investments.

Operating Expenses

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Interest and credit facility fees	\$ 120	\$ 94	\$ 314	\$ 267
Base management fees	78	65	226	184
Income based fees	63	53	171	158
Capital gains incentive fees(1)	(37)	30	(64)	133
Administrative fees	3	4	9	11
Other general and administrative	8	7	20	18
Total expenses	\$ 235	\$ 253	\$ 676	\$ 771

- (1) Calculated in accordance with U.S. generally accepted accounting principles ("GAAP") as discussed below.

Interest and credit facility fees for the three and nine months ended September 30, 2022 and 2021, were comprised of the following:

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Stated interest expense	\$ 107	\$ 76	\$ 282	\$ 222
Credit facility fees	7	9	13	23
Amortization of debt issuance costs	8	9	22	19
Net (amortization) accretion of discount on notes payable	(2)	—	(3)	3
Total interest and credit facility fees	\$ 120	\$ 94	\$ 314	\$ 267

Stated interest expense for the three and nine months ended September 30, 2022 increased from the comparable periods in 2021 primarily due to the increase in the average principal amount of debt outstanding. Our weighted average stated interest rate for the three months ended September 30, 2022 increased for the comparable period in 2021 due to the higher utilization of our floating rate revolving facilities and the impact of rising interest rates. Our weighted average stated interest rate for the nine months ended September 30, 2022 remained steady from the comparable period in 2021. Average debt outstanding and weighted average stated interest rate on our debt outstanding for the three and nine months ended September 30, 2022 and 2021 were as follows:

(in millions)	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2022	2021	2022	2021
Average debt outstanding	\$ 11,867	\$ 9,409	\$ 11,170	\$ 8,869
Weighted average stated interest rate on debt	3.6 %	3.3 %	3.3 %	3.3 %

Credit facility fees for the three and nine months ended September 30, 2022 were lower from the comparable periods in 2021 primarily due to the higher utilization of our revolving facilities resulting in lower unused commitment fees.

Base management fees for the three and nine months ended September 30, 2022 increased from the comparable periods in 2021 primarily due to the increase in the average size of our portfolio for the three and nine months ended September 30, 2022 as compared to the comparable periods in 2021.

Income based fees for the three and nine months ended September 30, 2022 increased from the comparable periods in 2021 primarily due to the pre-incentive fee net investment income, as defined in the investment advisory and management agreement, for the nine months ended September 30, 2022 being higher than in the comparable period in 2021.

For the three and nine months ended September 30, 2022, the reduction in the capital gains incentive fee calculated in accordance with GAAP was \$37 million and \$64 million, respectively. For the three and nine months ended September 30, 2021, the capital gains incentive fee calculated in accordance with GAAP was \$30 million and \$133 million, respectively. The capital gains incentive fee accrual for the nine months ended September 30, 2022 changed from the comparable period in 2021 primarily due to net losses on investments, foreign currency, other transactions and the extinguishment of debt of \$184 million compared to net gains of \$686 million for the nine months ended September 30, 2021. The capital gains incentive fee accrued under GAAP includes an accrual related to unrealized capital appreciation, whereas the capital gains incentive fee actually payable under our investment advisory and management agreement does not. There can be no assurance that such unrealized capital appreciation will be realized in the future. The accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reduction of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. As of September 30, 2022, there was \$72 million of capital gains incentive fees accrued in accordance with GAAP. As of September 30, 2022, there was no capital gains incentive fee actually payable under our investment advisory and management agreement. See Note 3 to our consolidated financial statements for the three and nine months ended September 30, 2022, for more information on the base management fees, income based fees and capital gains incentive fees.

Cash payment of any income based fees and capital gains incentive fees otherwise earned by our investment adviser is deferred if during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to our stockholders and (b) the change in net assets (defined as total assets less indebtedness and before taking into account any income based fees and capital gains incentive fees payable during the period) is less than 7.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period. These calculations will be adjusted for any share issuances or repurchases. Any income based fees and capital gains incentive fees deferred for payment are carried over for payment in subsequent calculation periods to the extent such fees are payable under the terms of the investment advisory and management agreement.

Administrative fees represent fees paid to Ares Operations for our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the compensation, rent and other expenses of certain of our corporate officers and their respective staffs. See Note 3 to our consolidated financial statements for the three and nine months ended September 30, 2022, for more information on the administrative fees.

Other general and administrative expenses include, among other costs, professional fees, insurance, fees and expenses related to evaluating and making investments in portfolio companies and independent directors' fees.

Income Tax Expense, Including Excise Tax

We have elected to be treated as a RIC under the Code and operate in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must (among other requirements) meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders at least 90% of our investment company taxable income, as defined by the Code, for each year. We have made and intend to continue to make the requisite distributions to our stockholders which will generally relieve us from U.S. federal corporate-level income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward such taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that we determine that our estimated current year taxable income will be in excess of estimated dividend distributions for the current year from such income, we accrue excise tax, if any, on estimated excess taxable income as such taxable income is earned. For the three and nine months ended September 30, 2022, we recorded an expense of \$8 million and \$24 million, respectively, for U.S. federal excise tax. For the three and nine months ended September 30, 2021, we recorded a net expense of \$7 million and \$19 million, respectively, for U.S. federal excise tax.

Certain of our consolidated subsidiaries are subject to U.S. federal and state income taxes. For the three and nine months ended September 30, 2022, we recorded a net tax expense of \$6 million and \$13 million, respectively, for these subsidiaries. For the three and nine months ended September 30, 2021, we recorded a net tax (benefit) expense of \$(1) million and \$3 million, respectively, for these subsidiaries. The income tax expense for our taxable consolidated subsidiaries will vary depending on the level of realized gains from the exits of investments held by such taxable subsidiaries during the respective periods.

During the nine months ended September 30, 2021, we redeemed the entire \$230 million in aggregate principal amount outstanding of the unsecured notes that were scheduled to mature on April 15, 2047 (the “2047 Notes”) in accordance with the terms of the indenture governing the 2047 Notes. The 2047 Notes were redeemed at par plus accrued and unpaid interest for a total redemption price of approximately \$233 million, which resulted in a realized loss on the extinguishment of debt of \$43 million. The \$186 million carrying value of the 2047 Notes at the time of redemption represented the aggregate principal amount of the 2047 Notes less the unaccreted purchased discount recorded in connection with the Allied Acquisition.

Net Unrealized Gains/Losses

We value our portfolio investments quarterly and the changes in value are recorded as unrealized gains or losses in our consolidated statement of operations. Net unrealized gains and losses on investments for the three and nine months ended September 30, 2022 and 2021, were comprised of the following:

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are generated primarily from the net proceeds of public offerings of equity and debt securities, advances from the Revolving Credit Facility, the Revolving Funding Facility, the SMBC Funding Facility and the BNP Funding Facility (each as defined below, and together, the “Facilities”), net proceeds from the issuance of other securities, including unsecured notes, as well as cash flows from operations.

In accordance with the Investment Company Act, we are allowed to borrow amounts such that our asset coverage calculated pursuant to the Investment Company Act, is at least 150% after such borrowings (i.e., we are able to borrow up to two dollars for every dollar we have in assets less all liabilities and indebtedness not represented by senior securities issued by us). As of September 30, 2022, we had \$257 million in cash and cash equivalents and \$11.9 billion in total aggregate principal amount of debt outstanding (\$11.8 billion at carrying value) and our asset coverage was 179%. Subject to borrowing base and other restrictions, we had approximately \$4.3 billion available for additional borrowings under the Facilities as of September 30, 2022.

We may from time to time seek to retire or repurchase our common stock through cash purchases, as well as retire, cancel or purchase our outstanding debt through cash purchases and/or exchanges, in open market purchases, privately negotiated transactions or otherwise. The amounts involved may be material. In addition, we may from time to time enter into additional debt facilities, increase the size of existing facilities or issue additional debt securities, including secured debt, unsecured debt and/or debt securities convertible into common stock. Any such purchases or exchanges of common stock or outstanding debt, or incurrence or issuance of additional debt would be subject to prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions and other factors.

Equity Capital Activities

As of September 30, 2022 and December 31, 2021, our total equity market capitalization was \$8.6 billion and \$9.9 billion, respectively.

We may from time to time issue and sell shares of our common stock through public or “at the market” offerings. In connection with the issuance of our common stock, we issued and sold the following shares of common stock during the nine months ended September 30, 2022:

(in millions, except per share amount) Issuances of Common Stock	Number of Shares Issued	Gross Proceeds	Underwriting Fees/Offering Expenses	Net Proceeds	Average Offering Price Per Share(1)
Public offerings	20.4	\$ 432.0	\$ 22.0	\$ 410.0	\$ 20.13 (2)
“At the market” offerings	19.6	403.4	4.6	398.8	20.57
Total	40.0	\$ 835.4	\$ 26.6	\$ 808.8	

(1) Represents the gross offering price per share before deducting underwriting discounts and commissions and offering expenses.

(2) 11.2 million and 9.2 million of the shares were sold to the underwriters for a price of \$21.06 per share and \$19.00 per share, respectively, which the underwriters were then permitted to sell at variable prices to the public.

“At the Market” Offerings

We have entered into equity distribution agreements with several banks (the “Equity Distribution Agreements”). The Equity Distribution Agreements provide that we may from time to time issue and sell, by means of “at the market” offerings, up to \$500 million shares of our common stock. Subject to the terms and conditions of the Equity Distribution Agreements, sales of common stock, if any, may be made in transactions that are deemed to be “at the market” offerings as defined in Rule 415(a)(4) under the Securities Act of 1933, as amended. Under the currently effective Equity Distribution Agreements, common stock with an aggregate offering amount of \$413 million remained available for issuance as of September 30, 2022.

Stock Repurchase Program

We are authorized under our stock repurchase program to purchase up to \$500 million in the aggregate of our outstanding common stock in the open market at certain thresholds below our net asset value per share, in accordance with the guidelines specified in Rule 10b-18 under the Securities Exchange Act of 1934, as amended. The timing, manner, price and amount of any share repurchases will be determined by us, in our sole discretion, based upon an evaluation of economic and market conditions, stock price, applicable legal and regulatory requirements and other factors. The stock repurchase program does not require us to repurchase any specific number of shares of common stock or any shares of common stock at all. Consequently, we cannot assure stockholders that any specific number of shares of common stock, if any, will be repurchased under the stock repurchase program. The expiration date of the stock repurchase program is February 15, 2023. The program may be suspended, extended, modified or discontinued at any time. As of September 30, 2022, there was \$500 million available for additional repurchases under the program.

During the nine months ended September 30, 2022 and 2021, we did not repurchase any shares of our common stock in the open market under the stock repurchase program.

Price Range of Common Stock

The following table sets forth, for the first two quarters of the year ending December 31, 2022 and each fiscal quarter for the fiscal years ended December 31, 2021 and 2020, the net asset value per share of our common stock, the range of high and low closing sales prices of our common stock, the closing sales price as a premium (discount) to net asset value and the dividends or distributions declared by us. On October 20, 2022, the last reported closing sales price of our common stock on The NASDAQ Global Select Market was \$17.90 per share, which represented a discount of approximately 3.56% to the net asset value per share reported by us as of September 30, 2022.

- (1) Represents the total aggregate amount committed or outstanding, as applicable, under such instrument. Borrowings under the committed Revolving Credit Facility, Revolving Funding Facility, SMBC Funding Facility and BNP Funding Facility (each as defined below) are subject to borrowing base and other restrictions.
- (2) Provides for a feature that allows us, under certain circumstances, to increase the size of the Revolving Credit Facility (as defined below) to a maximum of \$7.3 billion.
- (3) Provides for a feature that allows ACJB (as defined below), under certain circumstances, to increase the size of the SMBC Funding Facility (as defined below) to a maximum of \$1.0 billion.
- (4) Represents the aggregate principal amount outstanding, less unamortized debt issuance costs and the net unaccrued/amortized discount or premium recorded upon issuance. In February 2022, we repaid in full the 2022 Convertible Notes (defined below) upon their maturity.

The weighted average stated interest rate and weighted average maturity, both on aggregate principal amount outstanding, of all our debt outstanding as of September 30, 2022 were 3.8% and 3.8 years, respectively, and as of December 31, 2021 were 3.1% and 4.2 years, respectively.

The ratio of total principal amount of debt outstanding to stockholders' equity as of September 30, 2022 was 1.27:1.00 compared to 1.26:1.00 as of December 31, 2021.

Revolving Credit Facility

We are party to a senior secured revolving credit facility (as amended and restated, the “Revolving Credit Facility”), that allows us to borrow up to \$4.8 billion at any one time outstanding. The Revolving Credit Facility consists of a \$1.1 billion term loan tranche and a \$3.7 billion revolving tranche. For \$1.0 billion of the term loan tranche, the stated maturity date is March 31, 2027. For \$28 million of the term loan tranche, the stated maturity date is March 31, 2026. For the remaining \$50 million of the term loan tranche, the stated maturity date is March 30, 2025. For \$3.5 billion of the revolving tranche, the end of the revolving period and the stated maturity date are March 31, 2026 and March 31, 2027, respectively. For \$107 million of the revolving tranche, the end of the revolving period and the stated maturity date are March 31, 2025 and March 31, 2026, respectively. For the remaining \$150 million of the revolving tranche, the end of the revolving period and the stated maturity date are March 30, 2024 and March 30, 2025, respectively. The Revolving Credit Facility also provides for a feature that allows us, under certain circumstances, to increase the overall size of the Revolving Credit Facility to a maximum of \$7.3 billion. The interest rate charged on the Revolving Credit Facility is based on Secured Overnight Financing Rate (“SOFR”) (or an alternative rate of interest for certain loans, commitments and/or other extensions of credit denominated in Sterling, Canadian Dollars, Euros and certain other foreign currencies) plus a credit spread adjustment of 0.10% and an applicable spread of either 1.75% or 1.875% or an “alternate base rate” (as defined in the agreements governing the Revolving Credit Facility) plus a credit spread adjustment of 0.10% and an applicable spread of either 0.75% or 0.875%, in each case, determined monthly based on the total amount of the borrowing base relative to the sum of (i) the greater of (a) the aggregate amount of revolving exposure and term loans outstanding under the Revolving Credit Facility and (b) 85% of the total commitments of the Revolving Credit Facility (or, if higher, the total revolving exposure) plus (ii) other debt, if any, secured by the same collateral as the Revolving Credit Facility. As of September 30, 2022, the applicable spread in effect was 1.75%. We are also required to pay a letter of credit fee of either 2.00% or 2.125% per annum on letters of credit issued, determined monthly based on the total amount of the borrowing base relative to the total commitments of the Revolving Credit Facility and other debt, if any, secured by the same collateral as the Revolving Credit Facility. Additionally, we are required to pay a commitment fee of 0.375% per annum on any unused portion of the Revolving Credit Facility. As of September 30, 2022, there was \$1.8 billion outstanding under the Revolving Credit Facility and we were in compliance in all material respects with the terms of the Revolving Credit Facility.

Revolving Funding Facility

We and our consolidated subsidiary, Ares Capital CP Funding LLC (“Ares Capital CP”), are party to a revolving funding facility (as amended, the “Revolving Funding Facility”), that allows Ares Capital CP to borrow up to \$1.8 billion at any one time outstanding. The Revolving Funding Facility is secured by all of the assets held by, and the membership interest in, Ares Capital CP. The end of the reinvestment period and the stated maturity date for the Revolving Funding Facility are December 29, 2024 and December 29, 2026, respectively. The interest rate charged on the Revolving Funding Facility is based on SOFR plus a credit spread adjustment of 0.10% or a “base rate” (as defined in the agreements governing the Revolving Funding Facility) plus an applicable spread of 1.90% per annum. Ares Capital CP is also required to pay a commitment fee of between 0.50% and 1.25% per annum depending on the size of the unused portion of the Revolving Funding Facility. As of September 30, 2022, there was \$932 million outstanding under the Revolving Funding Facility and we and Ares Capital CP were in compliance in all material respects with the terms of the Revolving Funding Facility.

SMBC Funding Facility

We and our consolidated subsidiary, Ares Capital JB Funding LLC (“ACJB”), are party to a revolving funding facility (as amended, the “SMBC Funding Facility”), with ACJB, as the borrower, and Sumitomo Mitsui Banking Corporation, as the administrative agent and collateral agent, that allows ACJB to borrow up to \$800 million at any one time outstanding. The SMBC Funding Facility also provides for a feature that allows ACJB, subject to receiving certain consents, to increase the overall size of the SMBC Funding Facility to \$1.0 billion. The SMBC Funding Facility is secured by all of the assets held by ACJB. The end of the reinvestment period and the stated maturity date for the SMBC Funding Facility are May 28, 2024 and May 28, 2026, respectively. The reinvestment period and the stated maturity date are both subject to two one-year extensions by mutual agreement. The interest rate charged on the SMBC Funding Facility is based on an applicable spread of either 1.75% or 2.00% over LIBOR or 0.75% or 1.00% over a “base rate” (as defined in the agreements governing the SMBC Funding Facility), in each case, determined monthly based on the amount of the average borrowings outstanding under the SMBC Funding Facility. As of September 30, 2022, the applicable spread in effect was 1.75%. ACJB is also required to pay a commitment fee of between 0.50% and 1.00% per annum depending on the size of the unused portion of the SMBC Funding Facility. As of September 30, 2022, there was \$456 million outstanding under the SMBC Funding Facility and we and ACJB were in compliance in all material respects with the terms of the SMBC Funding Facility.

BNP Funding Facility

We and our consolidated subsidiary, ARCC FB Funding LLC (“AFB”), are party to a revolving funding facility (as amended, the “BNP Funding Facility”) with AFB, as the borrower, and BNP Paribas, as the administrative agent and lender, that allows AFB to borrow up to \$300 million at any one time outstanding. The BNP Funding Facility is secured by all of the assets held by AFB. The end of the reinvestment period and the stated maturity date for the BNP Funding Facility are June 11, 2023 and June 11, 2025, respectively. The reinvestment period and the stated maturity date are both subject to a one-year extension by mutual agreement. The interest rate charged on the BNP Funding Facility is based on three month LIBOR, or a “base rate” (as defined in the agreements governing the BNP Funding Facility) plus a margin of (i) 1.80% during the reinvestment period and (ii) 2.30% following the reinvestment period. Beginning on December 11, 2020, AFB is required to pay a commitment fee of between 0.00% and 1.25% per annum depending on the size of the unused portion of the BNP Funding Facility. As of September 30, 2022, there was \$175 million outstanding under the BNP Funding Facility and we and AFB were in compliance in all material respects with the terms of the BNP Funding Facility.

Convertible Unsecured Notes

We have issued \$403 million in aggregate principal amount of unsecured convertible notes that mature on March 1, 2024 (the “2024 Convertible Notes”) unless previously converted or repurchased in accordance with the terms. We do not have the right to redeem the 2024 Convertible Notes prior to maturity. The 2024 Convertible Notes bear interest at a rate of 4.625% per annum, payable semi-annually.

In certain circumstances, assuming the conversion date below has not already passed, the 2024 Convertible Notes will be convertible into cash, shares of our common stock or a combination of cash and shares of our common stock, at our election, at the conversion rate (listed below as of September 30, 2022) subject to customary anti-dilution adjustments and the requirements of the indenture (the “Convertible Unsecured Notes Indenture”). Prior to the close of business on the business day immediately preceding the conversion date (listed below), holders may convert their 2024 Convertible Notes only under certain circumstances set forth in the Convertible Unsecured Notes Indenture. On or after the conversion date until the close of business on the second scheduled trading day immediately preceding the maturity date for the 2024 Convertible Notes, holders may convert their 2024 Convertible Notes at any time. In addition, if we engage in certain corporate events as described in the Convertible Unsecured Notes Indenture, holders of the 2024 Convertible Notes may require us to repurchase for cash all or part of the 2024 Convertible Notes at a repurchase price equal to 100% of the principal amount of the 2024 Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

Certain key terms related to the convertible features for the 2024 Convertible Notes as of September 30, 2022 are listed below.

	2024 Convertible Notes
Conversion premium	15.0 %
Closing stock price at issuance	\$ 17.29
Closing stock price date	March 5, 2019
Conversion price(1)	\$ 19.78
Conversion rate (shares per one thousand dollar principal amount)(1)	50.5549
Conversion date	December 1, 2023

- (1) Represents conversion price and conversion rate, as applicable, as of September 30, 2022, taking into account any applicable de minimis adjustments that will be made on the conversion date.

In February 2022, we repaid in full the \$388 million in aggregate principal amount of unsecured convertible notes (the “2022 Convertible Notes”) upon their maturity at a premium in accordance with the terms of the indenture governing the 2022 Convertible Notes, resulting in a realized loss on the extinguishment of debt of \$48 million. The 2022 Convertible Notes bore interest at a rate of 4.60% per year, payable semi-annually.

Unsecured Notes

We issued certain unsecured notes (each issuance of which is referred to herein using the “defined term” set forth under the “Unsecured Notes” column of the table below and collectively referred to as the “Unsecured Notes”), that pay interest semi-annually and all principal amounts are due upon maturity. Each of the Unsecured Notes may be redeemed in whole or in part at any time at the Company’s option at a redemption price equal to par plus a “make whole” premium, if applicable, as determined pursuant to the indentures governing each of the Unsecured Notes, plus any accrued and unpaid interest. Certain key terms related to the features for the Unsecured Notes as of September 30, 2022 are listed below.

(dollar amounts in millions) Unsecured Notes	Aggregate Principal Amount Issued	Interest Rate	Original Issuance Date	Maturity Date
2023 Notes	\$ 750	3.500%	August 10, 2017	February 10, 2023
2024 Notes	\$ 900	4.200%	June 10, 2019	June 10, 2024
March 2025 Notes	\$ 600	4.250%	January 11, 2018	March 1, 2025
July 2025 Notes	\$ 1,250	3.250%	January 15, 2020	July 15, 2025
January 2026 Notes	\$ 1,150	3.875%	July 15, 2020	January 15, 2026
July 2026 Notes	\$ 1,000	2.150%	January 13, 2021	July 15, 2026
2027 Notes	\$ 500	2.875%	January 13, 2022	June 15, 2027
2028 Notes	\$ 1,250	2.875%	June 10, 2021	June 15, 2028
2031 Notes	\$ 700	3.200%	November 4, 2021	November 15, 2031

See Note 5 to our consolidated financial statements for the three and nine months ended September 30, 2022 for more information on our debt obligations.

As of September 30, 2022, we were in compliance in all material respects with the terms of the 2024 Convertible Unsecured Notes Indentures and the indentures governing the Unsecured Notes.

The 2024 Convertible Notes and the Unsecured Notes are our senior unsecured obligations and rank senior in right of payment to any future indebtedness that is expressly subordinated in right of payment to the 2024 Convertible Notes and the Unsecured Notes; equal in right of payment to our existing and future unsecured indebtedness that is not expressly subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

RECENT DEVELOPMENTS

From October 1, 2022 through October 20, 2022, we made new investment commitments of approximately \$1.1 billion, of which \$1.0 billion were funded. Of these new investment commitments, 68% were in first lien senior secured loans, 31% were in second lien senior secured loans and 1% were in other equity. Of the approximately \$1.1 billion of new investment commitments, 98% were floating rate, 1% were non-income producing and 1% were on non-accrual status. The weighted average yield of debt and other income producing securities funded during the period at amortized cost was 11.0% and the weighted average yield on total investments funded during the period at amortized cost was 10.9%. We may seek to sell all or a portion of these new investment commitments, although there can be no assurance that we will be able to do so.

From October 1, 2022 through October 20, 2022, we exited approximately \$418 million of investment commitments, including \$6 million of loans sold to IHAM or certain vehicles managed by IHAM. Of the total investment commitments exited, 77% were first lien senior secured loans, 20% were preferred equity and 3% were second lien senior secured loans. Of the approximately \$418 million of exited investment commitments, 80% were floating rate and 20% were fixed rate. The weighted average yield of debt and other income producing securities exited or repaid during the period at amortized cost was

10.0% and the weighted average yield on total investments exited or repaid during the period at amortized cost was 10.0%. Of the approximately \$418 million of investment commitments exited from October 1, 2022 through October 20, 2022, we recognized total net realized gains of approximately \$8 million, with no realized gains or losses recognized from the sale of loans to IHAM or certain vehicles managed by IHAM.

In addition, as of October 20, 2022, we had an investment backlog and pipeline of approximately \$605 million and \$0, respectively. Investment backlog includes transactions approved by our investment adviser's investment committee and/or for which a formal mandate, letter of intent or a signed commitment have been issued, and therefore we believe are likely to close. Investment pipeline includes transactions where due diligence and analysis are in process, but no formal mandate, letter of intent or signed commitment have been issued. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. In addition, we may sell all or a portion of these investments and certain of these investments may result in the repayment of existing investments. We cannot assure you that we will make any of these investments or that we will sell all or any portion of these investments.

CRITICAL ACCOUNTING ESTIMATES

The preparation of our consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Changes in the economic environment, financial markets, and any other parameters used in determining such estimates could cause actual results to differ. Our critical accounting estimates, including those relating to the valuation of our investment portfolio, are described below. The critical accounting estimates should be read in conjunction with our risk factors as disclosed in "Item 1A. Risk Factors." See Note 2 to our consolidated financial statements for three and nine months ended September 30, 2022 for more information on our critical accounting policies.

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment using the specific identification method without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized.

Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on, among other things, the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12-month period (with certain de minimis exceptions) and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a portion of our investment portfolio at fair value is subject to review by an independent third-party valuation firm each quarter. In addition, our independent registered public accounting firm obtains an understanding of, and performs select procedures relating to, our investment valuation process within the context of performing the integrated audit.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets, which may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, as described

herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuations are reviewed and discussed with our investment adviser's management and investment professionals, and then valuation recommendations are presented to our board of directors.
- The audit committee of our board of directors reviews these valuations, as well as the input of third parties, including independent third-party valuation firms who have reviewed a portion of the investments in our portfolio at fair value.
- Our board of directors discusses valuations and ultimately determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on, among other things, the input of our investment adviser, audit committee and, where applicable, independent third-party valuation firms.

Fair Value of Financial Instruments

We follow ASC 825-10, *Recognition and Measurement of Financial Assets and Financial Liabilities* ("ASC 825-10"), which provides companies the option to report selected financial assets and liabilities at fair value. ASC 825-10 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company's choice to use fair value on its earnings. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. We have not elected the ASC 825-10 option to report selected financial assets and liabilities at fair value. With the exception of the line items entitled "other assets" and "debt," which are reported at amortized cost, the carrying value of all other assets and liabilities approximate fair value.

We also follow ASC 820-10, which expands the application of fair value accounting. ASC 820-10 defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure of fair value measurements. ASC 820-10 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. ASC 820-10 requires us to assume that the portfolio investment is sold in its principal market to market participants or, in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820-10, we have considered its principal market as the market in which we exit our portfolio investments with the greatest volume and level of activity. ASC 820-10 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC 820-10, these inputs are summarized in the three broad levels listed below:

- Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that we have the ability to access.
- Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, we continue to employ the net asset valuation policy approved by our board of directors that is consistent with ASC 820-10. Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. Our valuation policy considers the fact that because there is not a readily available market value for most of the investments in our portfolio, the fair value of the investments must typically be determined using unobservable inputs.

Our portfolio investments (other than as described below in the following paragraph) are typically valued using two different valuation techniques. The first valuation technique is an analysis of the enterprise value (“EV”) of the portfolio company. Enterprise value means the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. The primary method for determining EV uses a multiple analysis whereby appropriate multiples are applied to the portfolio company’s EBITDA (generally defined as net income before net interest expense, income tax expense, depreciation and amortization). EBITDA multiples are typically determined based upon review of market comparable transactions and publicly traded comparable companies, if any. We may also employ other valuation multiples to determine EV, such as revenues or, in the case of certain portfolio companies in the power generation industry, kilowatt capacity. The second method for determining EV uses a discounted cash flow analysis whereby future expected cash flows of the portfolio company are discounted to determine a present value using estimated discount rates (typically a weighted average cost of capital based on costs of debt and equity consistent with current market conditions). The EV analysis is performed to determine the value of equity investments, the value of debt investments in portfolio companies where we have control or could gain control through an option or warrant security, and to determine if there is credit impairment for debt investments. If debt investments are credit impaired, an EV analysis may be used to value such debt investments; however, in addition to the methods outlined above, other methods such as a liquidation or wind-down analysis may be utilized to estimate enterprise value. The second valuation technique is a yield analysis, which is typically performed for non-credit impaired debt investments in portfolio companies where we do not own a controlling equity position. To determine fair value using a yield analysis, a current price is imputed for the investment based upon an assessment of the expected market yield for a similarly structured investment with a similar level of risk. In the yield analysis, we consider the current contractual interest rate, the maturity and other terms of the investment relative to the risk of the company and the specific investment. A key determinant of risk, among other things, is the leverage through the investment relative to the enterprise value of the portfolio company. As debt investments held by us are substantially illiquid with no active transaction market, we depend on primary market data, including newly funded transactions, as well as secondary market data with respect to high yield debt instruments and syndicated loans, as inputs in determining the appropriate market yield, as applicable.

For other portfolio investments such as investments in the SDLP Certificates and IHAM, discounted cash flow analysis is the primary technique utilized to determine fair value. Expected future cash flows associated with the investment are discounted to determine a present value using a discount rate that reflects estimated market return requirements.

In December 2020, the SEC adopted new Rule 2a-5 under the 1940 Act. Rule 2a-5 permits boards of directors of registered investment companies and BDCs to either (i) choose to continue to determine fair value in good faith, or (ii) designate its investment adviser as the valuation designee tasked with determining fair value in good faith, subject to the board’s oversight. Our board of directors has designated our investment adviser to serve as our valuation designee effective October 1, 2022.

See Note 8 to our consolidated financial statements for the three and nine months ended September 30, 2022 for more information on our valuation process.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio. Uncertainty with respect to the economic effects of rising interest rates in response to inflation, the war in Russia and Ukraine and the ongoing COVID-19 pandemic introduced significant volatility in the financial markets, and the effects of this volatility has materially impacted and could continue to materially impact our market risks, including those listed below. For additional information concerning these risks and their potential impact on our business and our operating results, see “Risk Factors—General Risk Factors—Global economic, political and market conditions, including uncertainty about the financial stability of the United States, could have a significant adverse effect on our business, financial condition and results of operations” and “Risk Factors—Risks Relating to Our Investments—Economic recessions or downturns could impair our portfolio companies and harm our operating results.” in our Annual Report on Form 10-K for the year ended December 31, 2021, filed with the SEC on February 9, 2022 and “Risk Factors—Risks Relating to Our Investments—Inflation has adversely affected and may continue to adversely affect the business, results of operations and financial condition of our portfolio companies” in this Form 10-Q.

Investment Valuation Risk

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors based on, among other things, the input of our management and audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12-month period (with certain de minimis exceptions). Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Estimates” as well as Notes 2 and 8 to our consolidated financial statements for the three and nine months ended September 30, 2022 for more information relating to our investment valuation.

Interest Rate Risk

Interest rate sensitivity refers to the change in our earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the difference between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

In a prolonged low interest rate environment, the difference between the total interest income earned on interest earning assets and the total interest expense incurred on interest bearing liabilities may be compressed, reducing our net income and potentially adversely affecting our operating results. Conversely, in a rising interest rate environment, such difference could potentially increase thereby increasing our net income as indicated per the table below.

As of September 30, 2022, 73% of the investments at fair value in our portfolio bore interest and dividends at variable rates (including our investment in the SDLP Certificates which accounted for 5% of our total investments at fair value), 10% bore interest at fixed rates, 9% were non-income producing, 1% were on non-accrual status and 7% was our equity investment in IHAM which generally pays a quarterly dividend. Additionally, excluding our investment in the SDLP Certificates, 92% of the remaining variable rate investments at fair value contained interest rate floors. The Revolving Credit Facility, the Revolving Funding Facility, the SMBC Funding Facility and the BNP Funding Facility bear interest at variable rates with no interest rate floors. The Unsecured Notes and the 2024 Convertible Notes bear interest at fixed rates.

We regularly measure our exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on that review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates.

Based on our September 30, 2022 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure:

(in millions) Basis Point Change	Interest and Dividend Income	Interest Expense	Net Income(1)
Up 300 basis points	\$ 513	\$ 100	\$ 413
Up 200 basis points	\$ 358	\$ 66	\$ 292
Up 100 basis points	\$ 206	\$ 33	\$ 173
Down 100 basis points	\$ (154)	\$ (34)	\$ (120)
Down 200 basis points	\$ (295)	\$ (67)	\$ (228)
Down 300 basis points	\$ (359)	\$ (98)	\$ (261)

- (1) Excludes the impact of income based fees. See Note 3 to our consolidated financial statements for the three and nine months ended September 30, 2022 for more information on the income based fees.

Based on our December 31, 2021 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure:

(in millions) Basis Point Change	Interest and Dividend Income	Interest Expense(1)	Net Income(2)
Up 300 basis points	\$ 347	\$ 80	\$ 267
Up 200 basis points	\$ 195	\$ 53	\$ 142
Up 100 basis points	\$ 45	\$ 27	\$ 18
Down 100 basis points	\$ 5	\$ (4)	\$ 9
Down 200 basis points	\$ 4	\$ (4)	\$ 8
Down 300 basis points	\$ 6	\$ (4)	\$ 10

- (1) Includes the impact of an interest rate swap as a result of changes in interest rates.
- (2) Excludes the impact of income based fees. See Note 3 to our consolidated financial statements for the three and nine months ended September 30, 2022 for more information on the income based fees.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2022. Based upon that evaluation and subject to the foregoing, our principal executive officer and principal financial officer concluded that, as of September 30, 2022, the design and operation of our disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended September 30, 2022 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

We are not subject to any material pending legal proceedings, and no such proceedings are known to be contemplated.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the risk factors described in Part I, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021 and those set forth under the caption “Risk Factors” in our Form N-2, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021, and in the Form N-2 are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

The Russian invasion of Ukraine may have a material adverse impact on us and our portfolio companies.

On February 24, 2022, the President of Russia, Vladimir Putin, announced a military invasion of Ukraine. In response, countries worldwide, including the United States, have imposed sanctions against Russia on certain businesses and individuals, including, but not limited to, those in the banking, import and export sectors. This invasion has led, is currently leading, and for an unknown period of time will continue to lead to disruptions in local, regional, national, and global markets and economies affected thereby. These disruptions caused by the invasion have included, and may continue to include, political, social, and economic disruptions and uncertainties and material increases in certain commodity prices that may affect our business operations or the business operations of our portfolio companies.

We are exposed to risks associated with changes in interest rates, including the current rising interest rate environment.

General interest rate fluctuations may have a substantial negative impact on our investments and our investment returns and, accordingly, may have a material adverse effect on our investment objective and our net investment income.

Because we borrow money and may issue debt securities or preferred stock to make investments, our net investment income is dependent upon the difference between the rate at which we borrow funds or pay interest or dividends on such debt securities or preferred stock and the rate at which we invest these funds. In this period of rising interest rates, our interest income will increase as the majority of our portfolio bears interest at variable rates while our cost of funds will also increase, to a lesser extent, given the majority of our indebtedness bears interest at fixed rates, with the net impact being an increase to our net investment income, see “Item 3. Qualitative and Quantitative Disclosures About Market Risk.” Conversely, if interest rates decrease we may earn less interest income from investments and our cost of funds will also decrease, to a lesser extent, resulting in lower net investment income. From time to time, we may also enter into certain hedging transactions to mitigate our exposure to changes in interest rates. In the past, we have entered into certain hedging transactions, such as interest rate swap agreements, to mitigate our exposure to adverse fluctuations in interest rates, and we may do so again in the future. However, we cannot assure you that such transactions will be successful in mitigating our exposure to interest rate risk. There can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

Our portfolio primarily consists of fixed and floating rate investments. Market prices tend to fluctuate more for fixed-rate securities that have longer maturities. Although we have no policy governing the maturities of our investments, under current market conditions we expect that we will invest in a portfolio of debt generally having maturities of up to 10 years. Market prices for debt that pays a fixed rate of return tend to decline as interest rates rise. This means that we are subject to greater risk (other things being equal) than a fund invested solely in shorter-term, fixed-rate securities. Market prices for floating rate investments may also fluctuate in rising rate environments with prices tending to decline when credit spreads widen. A decline in the prices of the debt we own could adversely affect our net assets resulting from operations and the market price of our common stock.

Rising interest rates may also increase the cost of debt for our underlying portfolio companies, which could adversely impact their financial performance and ability to meet ongoing obligations to us. Also, an increase in interest rates available to investors could make an investment in our common stock less attractive if we are not able to pay dividends at a level that provides a similar return, which could reduce the value of our common stock.

Inflation has adversely affected and may continue to adversely affect the business, results of operations and financial condition of our portfolio companies.

Certain of our portfolio companies are in industries that have been impacted by inflation. Recent inflationary pressures have increased the costs of labor, energy and raw materials and have adversely affected consumer spending, economic growth and our portfolio companies' operations. If such portfolio companies are unable to pass any increases in their costs of operations along to their customers, it could adversely affect their operating results and impact their ability to pay interest and principal on our loans, particularly if interest rates rise in response to inflation. In addition, any projected future decreases in our portfolio companies' operating results due to inflation could adversely impact the fair value of those investments. Any decreases in the fair value of our investments could result in future realized or unrealized losses and therefore reduce our net assets resulting from operations. Additionally, the Federal Reserve has raised, and has indicated its intent to continue raising, certain benchmark interest rates in an effort to combat inflation. See "—We are exposed to risks associated with changes in interest rates, including the current rising interest rate environment."

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Dividend Reinvestment Plan

We did not sell any equity securities during the period covered in this report that were not registered under the Securities Act of 1933, as amended.

During the quarter ended September 30, 2022, as part of our dividend reinvestment plan for our common stockholders, we purchased shares of our common stock in the open market in order to satisfy the reinvestment portion of our dividends. The following chart outlines such purchases of our common stock during the quarter ended September 30, 2022.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs

Stock Repurchase Program

In February 2022, our board of directors authorized an amendment to our existing stock repurchase program to (a) extend the expiration date of the program from February 15, 2022 to February 15, 2023 and (b) increase the amount of the stock repurchase program to a full \$500 million. Under the program, we may repurchase up to \$500 million in the aggregate of our outstanding common stock in the open market at certain thresholds below our net asset value per share, in accordance with the guidelines specified in Rule 10b-18 of the Securities Exchange Act of 1934, as amended. The timing, manner, price and amount of any share repurchases will be determined by us, in our sole discretion, based upon an evaluation of economic and market conditions, stock price, applicable legal and regulatory requirements and other factors. The stock repurchase program will be in effect through February 15, 2023, unless extended or until the approved dollar amount has been used to repurchase shares. The stock repurchase program does not require us to repurchase any specific number of shares of common stock or any shares of common stock at all. Consequently, we cannot assure stockholders that any specific number of shares of common stock, if any, will be repurchased under the stock repurchase program. The program may be suspended, extended, modified or discontinued at any time.

During the quarter ended September 30, 2022, there were no repurchases of our common stock under our stock repurchase program. As of September 30, 2022, the approximate dollar value of shares that may yet be purchased under the program was \$500 million.

This SECOND AMENDMENT TO THE REVOLVING CREDIT AND SECURITY AGREEMENT (this “Amendment”), dated as of August 17, 2022 (the “Amendment Date”), is entered into by and among ARCC FB FUNDING LLC, a Delaware limited liability company, as the borrower (the “Borrower”), the LENDERS party to the Revolving Credit Agreement, BNP PARIBAS, as the administrative agent (the “Administrative Agent”), ARES CAPITAL CORPORATION, a Maryland corporation, as the equityholder (in such capacity, the “Equityholder”), ARES CAPITAL CORPORATION, a Maryland corporation, as the servicer (in such capacity, the “Servicer”), and U.S. BANK TRUST COMPANY, NATIONAL ASSOCIATION, as successor in interest to U.S. Bank National Association, as collateral agent (the “Collateral Agent”).

WHEREAS, the Borrower, the lenders from time to time party thereto, the Administrative Agent, the Equityholder, the Servicer and the Collateral Agent are party to the Revolving Credit and Security Agreement, dated as of June 11, 2020 (as amended from time to time prior to the date hereof, the “Revolving Credit Agreement”); and

WHEREAS, the parties hereto desire to amend the Revolving Credit Agreement, in accordance with Section 13.01(b) of the Revolving Credit Agreement subject to the terms and conditions set forth herein.

NOW THEREFORE, in consideration of the foregoing premises and the mutual agreements contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound, hereby agree as follows:

ARTICLE I.

Definitions

SECTION 1.1. Defined Terms. Terms used but not defined herein have the respective meanings given to such terms in the Revolving Credit Agreement.

ARTICLE II.

Amendments to Revolving Credit Agreement

SECTION 2.1. As of the Amendment Date, the Revolving Credit Agreement is hereby amended to delete the stricken text (indicated textually in the same manner as the following example: ~~stricken text~~) and to add the bold and double-underlined text (indicated textually in the same manner as the following example: **bold and double-underlined text**) as set forth on the pages attached as Appendix A hereto.

SECTION 2.2. As of the Amendment Date, Schedule 4 to the Revolving Credit Agreement is hereby amended by replacing Schedule 4 in its entirety with the pages set attached as Appendix B hereto.

ARTICLE III.

Omnibus Amendment to Transaction Documents

SECTION 3.1. The parties hereto acknowledge and agree that U.S. Bank Trust Company, National Association is the successor in interest to U.S. Bank National Association by an assignment from U.S. Bank National Association of its rights, interests and obligations in its roles as Secured Party or Collateral Agent, as applicable, and all Facility Documents are hereby amended to delete all references to U.S. Bank National Association in its role as Collateral Agent, and insert U.S. Bank Trust Company, National Association in lieu thereof.

ARTICLE IV.

Representations and Warranties

SECTION 4.1. The Borrower and the Equityholder hereby represent and warrant to the Administrative Agent and the Lender that, as of the Amendment Date, (i) no Default, Event of Default, Potential Servicer Removal Event or Servicer Removal Event has occurred and is continuing and (ii) the representations and warranties of the Borrower, the Servicer and the Equityholder contained in Sections 4.01, 4.02 and 4.03 of the Revolving Credit Agreement are true and correct in all material respects on and as of the Amendment Date (other than any representation and warranty that is made as of a specific date).

ARTICLE V.

Conditions Precedent

SECTION 5.1. This Amendment will be effective upon the satisfaction of each of the following conditions:

- (a) the execution and delivery of this Amendment by the Borrower, the Lenders, the Administrative Agent, the Equityholder and the Servicer; and
- (b) all fees due and owing to the Administrative Agent and each Lender on or prior to the Amendment Date have been paid.

ARTICLE VI.

Miscellaneous

SECTION 6.1. Governing Law. THIS AMENDMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES UNDER THIS AMENDMENT SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.

SECTION 6.2. Severability Clause. In case any provision in this Amendment is deemed to be invalid, illegal or unenforceable, the remaining provisions of this Amendment remain in full force and effect.

SECTION 6.3. Ratification. Except as expressly amended hereby, the Revolving Credit Agreement is in all respects ratified and confirmed and all the terms, conditions and provisions thereof will remain in full force and effect. When effective, this Amendment will form a part of the Revolving Credit Agreement for all purposes.

SECTION 6.4. Counterparts. The parties hereto may sign one or more copies of this Amendment in counterparts, all of which together constitute one and the same agreement. Delivery of an executed signature page of this Amendment by facsimile or email transmission (including electronic signature pursuant to and in accordance with the Revolving Credit Agreement) is effective as delivery of a manually executed counterpart hereof.

SECTION 6.5. Headings. The headings of the Articles and Sections in this Amendment are for convenience of reference only and are not deemed to alter or affect the meaning or interpretation of any provisions hereof.

SECTION 6.6. Direction to Execute. The Administrative Agent hereby authorizes and directs the Collateral Agent to execute this Amendment.

REVOLVING CREDIT AND SECURITY AGREEMENT

REVOLVING CREDIT AND SECURITY AGREEMENT, dated as of June 11, 2020, among **ARCC FB FUNDING LLC**, a Delaware limited liability company, as borrower (the “Borrower”), the **LENDERS** from time to time party hereto, **BNP PARIBAS** (“**BNP**”), as administrative agent for the Secured Parties (as hereinafter defined) (in such capacity, the “Administrative Agent”), **ARES CAPITAL CORPORATION**, a Maryland corporation, as equityholder (in such capacity, the “Equityholder”), **ARES CAPITAL CORPORATION**, a Maryland corporation, as servicer (in such capacity, the “Servicer”), and **U.S. BANK TRUST COMPANY, NATIONAL ASSOCIATION** (“U.S. Bank”), as successor in interest to U.S. Bank National Association, as collateral agent for the Secured Parties (as hereinafter defined) (in such capacity, the “Collateral Agent”).

WITNESSETH:

WHEREAS, the Borrower desires that the Lenders make advances on a revolving basis to the Borrower on the terms and subject to the conditions set forth in this Agreement; and

WHEREAS, each Lender is willing to make such advances to the Borrower on the terms and subject to the conditions set forth in this Agreement.

NOW, THEREFORE, in consideration of the premises and of the mutual covenants herein contained, the parties hereto agree as follows:

ARTICLE I

DEFINITIONS; RULES OF CONSTRUCTION; COMPUTATIONS

Section 1.01 Definitions. As used in this Agreement, the following terms shall have the meanings indicated:

“Account Control Agreement” means that certain Account Control Agreement, dated as of the Closing Date, among the Borrower, the Servicer, the Collateral Agent and U.S. Bank National Association, as Securities Intermediary, which agreement relates to the Covered Accounts.

“Adjusted Principal Balance” means, for any Eligible Collateral Loan, as of any date of determination, an amount equal to the Loan Value of such Eligible Collateral Loan as of such date *multiplied by* the Principal Balance of such Eligible Collateral Loan as of such date; provided that, the parties hereby agree that the Adjusted Principal Balance of any Ineligible Collateral Loan as of such date of determination shall be zero.

“Administrative Agent” has the meaning assigned to such term in the introduction to this Agreement.

purchase of Collateral Loans) and (b) after the date that is the six-month anniversary of the Closing Date, the Aggregate Adjusted Collateral Balance.

“Concentration Limitations” means, as of any date of determination, the following limitations (calculated without duplication) as applied to the Eligible Collateral Loans owned (or, in relation to a proposed purchase of an Eligible Collateral Loan, proposed to be owned, with respect to which, if such purchase results in noncompliance with the limitations, the relevant requirements must be maintained or improved after giving effect to the purchase) by the Borrower, unless a waiver is provided in writing by the Administrative Agent specifying the agreed treatment of such Collateral Loan or Concentration Limitation:

- (a). not more than 15.00% of the Concentration Calculation Amount may consist of First Lien Last Out Loans or Second Lien Loans;
- (b). not more than 10.00% of the Concentration Calculation Amount may consist of Second Lien Loans;
- (c). (i) not more than 20.00% of the Concentration Calculation Amount may consist of Class 1 Loans and Class 2 Loans that are Cov-Lite Loans and (ii) not more than 10.00% of the Concentration Calculation Amount may consist of Class 2 Loans that are Cov-Lite Loans;
- (d). not less than 80.00% of the Concentration Calculation Amount may consist of Collateral Loans denominated in Dollars;
- (e). not less than 80.00% of the Concentration Calculation Amount may consist of Collateral Loans the Obligors of which have their headquarters in, a principal place of business in or are organized, formed or incorporated in the United States;
- (f). not more than 10.00% of the Concentration Calculation Amount may consist of Revolving Collateral Loans or Delayed Drawdown Collateral Loans;
- (g). not more than 5.00% of the Maximum Portfolio Amount may consist of Collateral Loans that are issued by any Obligor and its Affiliates, except that Collateral Loans that are issued by the two largest Obligors and their respective Affiliates may consist of up to 10.00% and 7.50% of the Maximum Portfolio Amount, respectively;
- (h). not more than 7.50% of the Concentration Calculation Amount may consist of Collateral Loans that are issued by Obligors and their Affiliates that belong to any single ~~Moody's~~ Industry Classification, except that (i) up to 25.00% may consist of Collateral Loans with Obligors and their Affiliates in the largest ~~Moody's~~ Industry Classification, (ii) up to 20.00% may consist of Collateral Loans with Obligors and their Affiliates in the second largest ~~Moody's~~ Industry Classification ~~and~~, (iii) up to 15.00% may consist of Collateral Loans with Obligors and their Affiliates in the third largest ~~Moody's~~ Industry Classification and (iv) up to 10.00% may consist of Collateral Loans with Obligors and their Affiliates in each of the fourth and fifth largest Industry Classifications;

- (i). not more than 5.00% of the Concentration Calculation Amount may consist of Fixed Rate Loans;
- (j). not more than 10.00% of the Concentration Calculation Amount may consist of Partial PIK Loans; and

“Servicer Removal Event” means any one of the following events:

(a). except as set forth in another clause of this definition, the Servicer breaches in any material respect any covenant or agreement applicable to it under this Agreement or any other Facility Document to which it is a party (it being understood that failure to meet the Minimum OC Coverage Test, any Concentration Limitation or the Collateral Quality Test is not a breach under this clause (a)), and, if capable of being cured, is not cured within 30 days of the earlier of (i) a Responsible Officer of the Servicer acquiring actual knowledge of such breach or (ii) the Servicer receiving written notice from either Agent of such breach;

Documents. If no successor Collateral Agent shall have been appointed and an instrument of acceptance by a successor Collateral Agent shall not have been delivered to the Collateral Agent within sixty days after giving of notice of resignation by the Collateral Agent, the resigning Collateral Agent may petition any court of competent jurisdiction for the appointment of a successor Collateral Agent.

(b). Any Person (i) into which the Collateral Agent may be merged or consolidated, (ii) that may result from any merger or consolidation to which the Collateral Agent shall be a party, or (iii) that may succeed to all or substantially all of the corporate trust ~~properties and assets~~ business of the Collateral Agent substantially as a whole, shall be the successor to the Collateral Agent under this Agreement without further act of any of the parties to this Agreement.

Section 12.06 The Collateral Agent. (a) The Collateral Agent shall have no liability for losses arising from (i) any cause beyond its control, (ii) any delay, error, omission or default of any mail, telegraph, cable or wireless agency or operator, or (iii) the acts or edicts of any government or governmental agency or other group or entity exercising governmental powers.

(b). It is expressly acknowledged and agreed that the Collateral Agent is not guaranteeing the performance of or assuming any liability for the obligations of the other parties hereto or any portion of the Collateral.

(c). The Collateral Agent shall not be responsible for the preparation or filing of any UCC financing statements or continuation statements or the correctness of any financing statements filed in connection with this Agreement or the validity or perfection of any lien or security interest created pursuant to this Agreement.

(d). The Collateral Agent shall not be liable for interest on any money received by it except as the Collateral Agent may agree in writing with the Borrower. In no event shall the Collateral Agent be liable for the selection of any investments or any losses in connection therewith (except in its capacity as obligor thereunder, if applicable), or for any failure of the relevant party to provide investment instruction to the Collateral Agent in connection with the investment of funds in or from any account set forth herein.

(e). The Collateral Agent shall have no liability for any failure, inability or unwillingness on the part of the Servicer, the Borrower or the Administrative Agent to provide accurate and complete information on a timely basis to the Collateral Agent, or otherwise on the part of any such party to comply with the terms of this Agreement, and shall have no liability for any inaccuracy or error in the performance or observance on the Collateral Agent's part of any of its duties hereunder that is caused by or results from any such inaccurate, incomplete or untimely information received by it, or other failure on the part of any such other party to comply with the terms hereof.

(f). The Collateral Agent shall not be bound to make any investigation into the facts or matters stated in any certificate, report or other document or electronic communication; provided, however, that, if the form thereof is prescribed by this Agreement, the Collateral

Agent shall examine the same to determine whether it conforms on its face to the requirements hereof. The Collateral Agent shall not be deemed to have knowledge or notice of any matter unless actually known to a Responsible Officer. It is expressly acknowledged by the Borrower, the Servicer, the Lenders and the Administrative Agent that performance by the Collateral Agent of its various duties hereunder (including recalculations to be performed in respect of the matters contemplated hereby) shall be based upon, and in reliance upon, data, information and notices provided to it by the Servicer (and/or the Borrower) and/or any related bank agent, obligor or similar party with respect to the Collateral, and the Collateral Agent shall have no responsibility for the accuracy of any such information or data provided to it by such persons and shall be entitled to update its records (as it may deem necessary or appropriate). Nothing herein shall impose or imply any duty or obligation on the part of the Collateral Agent to verify, investigate or audit any such information or data, or to determine or monitor on an independent basis whether any issuer of the Collateral is in default or in compliance with the underlying documents governing or securing such item of Collateral, from time to time.

(g). The Collateral Agent shall have no duty to determine or inquire into the happening or occurrence of any event or contingency, and it is agreed that its duties hereunder are purely ministerial in nature.

(h). Should any controversy arise between the undersigned with respect to the Collateral held by the Collateral Agent, the Collateral Agent shall follow the instructions of the Administrative Agent on behalf of the Secured Parties (provided that to the extent practicable, the Collateral Agent shall provide written notice of such controversy to the Servicer).

(i). The powers conferred on the Collateral Agent hereunder are solely to protect its interest (on behalf of the Secured Parties) in the Collateral and shall not impose any duty on it to exercise any such powers. Except for performing the obligations expressly imposed on the Collateral Agent hereunder, the Collateral Agent shall have no duty as to any Collateral or responsibility for ascertaining or taking action with respect to calls, conversions, exchanges, maturities, tenders or other matters relative to any Collateral, whether or not the Collateral Agent has or is deemed to have knowledge of such matters or taking any steps to preserve rights against prior parties or other rights pertaining to any Collateral.

(j). In order to comply with the laws, rules, regulations and executive orders in effect from time to time applicable to banking institutions, including those relating to the funding of terrorist activities and money laundering, the Collateral Agent may be required to obtain, verify and record certain information relating to individuals and entities which maintain a business relationship with the Collateral Agent. Accordingly, each of the parties hereto agrees to provide to the Collateral Agent upon its request from time to time such identifying information and documentation as may be available to such party in order to enable the Collateral Agent to comply with such requirements.

(k). If U.S. Bank, [U.S. Bank National Association](#) or the Collateral Agent is also acting in another capacity, including as Custodian or Securities Intermediary, the rights, protections, immunities and indemnities afforded to U.S. Bank, [U.S. Bank National Association](#) or the Collateral Agent pursuant to this Article XII shall also be afforded to U.S. Bank, [U.S. Bank National Association](#) or the Collateral Agent acting in such capacities; provided that such

rights, protections, benefits, immunities and indemnities shall be in addition to, and not in limitation of, any rights, protections, benefits, immunities and indemnities provided in the Custodian Agreement, Account Control Agreement or any other Facility Documents to which

U.S. Bank, [U.S. Bank National Association](#) or the Collateral Agent in such capacity is a party.

(l). The Collateral Agent shall not have any obligation to determine if a Collateral Loan meets the criteria specified in the definition of Eligible Collateral Loan or if the requirements set forth in the definition of “Deliver” have been satisfied.

(m). The Collateral Agent shall not be under any obligation (i) to monitor, determine or verify the unavailability or cessation of LIBOR (or any other applicable index, floating rate, interest rate or Benchmark Replacement), or whether or when there has occurred, or to give notice to any other transaction party of the occurrence of, any Benchmark Replacement Date, Benchmark Transition Event, Benchmark Unavailability Period or Early Opt-In Election, (ii) to select, determine or designate any Benchmark Replacement or other alternate benchmark rate, or other successor or replacement rate, or whether any conditions to the designation of such a rate have been satisfied, or (iii) to select, determine or designate any Benchmark Replacement Adjustment or other modifier to any Benchmark Replacement or other replacement or successor rate or index, or (iv) to determine whether or what Benchmark Replacement Conforming Changes are necessary or advisable, if any, in connection with any of the foregoing.

(n). The Collateral Agent shall not be liable for any inability, failure or delay on its part to perform any of its duties set forth in this Agreement as a result of the unavailability of LIBOR (or any Benchmark Replacement or other applicable index, floating rate or other Interest Rate) and absence of any Benchmark Replacement or other replacement index or floating rate, including as a result of any inability, delay, error or inaccuracy on the part of any other transaction party, including without limitation the Administrative Agent, the Borrower or the Servicer, in providing any direction, instruction, notice or information required or contemplated by the terms of this Agreement and reasonably required for the performance of such duties.

ARTICLE XIII MISCELLANEOUS

Section 13.01 No Waiver; Modifications in Writing. (a) No failure or delay on

the part of any Secured Party exercising any right, power or remedy hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any such right, power or remedy preclude any other or further exercise thereof or the exercise of any other right, power or remedy. Any waiver of any provision of this Agreement or any other Facility Document, and any consent to any departure by any party to this Agreement or any other Facility Document from the terms of any provision of this Agreement or such other Facility Document, shall be effective only in the specific instance and for the specific purpose for which given. No notice to or demand on the Borrower or the Servicer in any case shall entitle the Borrower or the Servicer to any other or further notice or demand in similar or other circumstances.

Each of U.S. Bank and U.S. Bank National Association in each of ~~its~~their respective capacities under the Facility Documents agrees to accept and act upon instructions or directions pursuant to this Agreement, any other Facility Document, or any Related Document or any document executed in connection herewith or therewith sent by unsecured email, facsimile transmission or other similar unsecured electronic methods; provided, however, that any person providing such instructions or directions shall provide to U.S. Bank or U.S. Bank National Association an incumbency certificate listing persons designated to provide such instructions or directions as such incumbency certificate may be supplemented from time to time. If any person elects to give U.S. Bank or U.S. Bank National Association email or facsimile instructions (or instructions by a similar electronic method) and U.S. Bank or U.S. Bank National Association, as applicable in its discretion elects to act upon such instructions, U.S. Bank's or U.S. Bank National Association's reasonable understanding of such instructions shall be deemed controlling. U.S. Bank and U.S. Bank National Association shall not be liable for any losses, costs or expenses arising directly or indirectly from U.S. Bank's or U.S. Bank National Association's reliance upon and compliance with such instructions notwithstanding such instructions conflicting with or being inconsistent with a subsequent written instruction. Any person providing such instructions or directions acknowledges and agrees that there may be more secure methods of transmitting such instructions than the method(s) selected by it and agrees that the security procedures (if any) to be followed in connection with its transmission of such instructions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances.

In addition to all other instruction methods permitted under this Agreement, the Borrower hereby directs U.S. Bank in each of its capacities under the Facility Documents to accept instructions sent pursuant to secure financial messaging services provided by SWIFT, which shall constitute instructions from the Borrower (or the Servicer on behalf of the Borrower) for all purposes hereunder. The Borrower instructs U.S. Bank to accept and process SWIFT transmissions initiated by the Borrower or the Servicer on its behalf to the same extent that written wire transfer instructions are accepted and processed by U.S. Bank. U.S. Bank in each of its capacities under the Facility Documents may conclusively rely on SWIFT transmissions to release payments as instructed, subject to any verification of information as requested by U.S. Bank in such capacity, including the call back process to an individual designated by the Borrower or the Servicer as authorized to provide such verification. U.S. Bank may also request, and the Borrower or the Servicer will provide, an additional signed direction (whether by manual, facsimile, PDF or other electronic signature) in order for U.S. Bank to make such payment in connection with any SWIFT transmission. For purposes of compliance with any incumbency certificate of the Borrower or the Servicer, all instructions received by U.S. Bank through the methodology described herein shall be deemed in compliance with the procedures outlined therein (to the extent applicable).

Section 13.03 Taxes. (a) Any and all payments by or on account of any obligation of the Borrower under any Facility Document shall be made without deduction or withholding for any and all Taxes with respect thereto, unless required by Applicable Law. If any Applicable Law (as determined in the good faith discretion of the Borrower or Administrative Agent) requires the deduction or withholding of any Tax from any such payment by the Borrower or the Administrative Agent, then the Borrower or the Administrative Agent shall be entitled to make
